

Continued Investment in People

ANNUAL REPORT 2024 - 2025

Continued Investment in People

“Continued Investment in People” speaks to the heart of why our Citizenship by Investment Programme exists: to strengthen the human foundation of our nation. It reflects our belief that progress is achieved when people are empowered, communities are uplifted, and opportunities are expanded for every Saint Lucian. This theme honours the individuals whose dedication safeguards the integrity of our Programme, the partners who trust in our vision, and the citizens whose futures are shaped by its impact. It reminds us that behind every decision, every reform, and every achievement lies a deeper purpose—building a Saint Lucia where our people stand more confident, more capable, and more connected to the possibilities of tomorrow. This is our commitment, our charge, and our legacy: a steady and deliberate investment in the lives, potential, and aspirations of our people.

CHAIRMAN'S REPORT

The 2024/25 fiscal period was marked by exceptional performance. The Citizenship by Investment Unit recorded EC\$402.2 million in revenue, a 67% increase from the prior year."

Julian Charles | Deputy Chairman,
Citizenship by Investment Programme
Saint Lucia

As Deputy Chairman of the Board of the Citizenship by Investment Programme (CIP), I am honoured to present this message for the fiscal year ended March 31, 2025. The theme “Continued Investment in People” reflects the guiding principle that shapes our decisions and informs our long-term strategy for the Programme. Our responsibility as a Board is to ensure that the CIP remains a stable, credible, and transformative pillar of national development. This year’s achievements affirm that we remain firmly on that path.

The 2024/25 fiscal period was marked by exceptional performance. The Citizenship by Investment Unit recorded EC\$402.2 million in revenue, a 67% increase from the prior year. The Unit also achieved a surplus of EC\$145.5 million, reflecting strong market engagement and an effective governance framework. These results demonstrate continued confidence in Saint Lucia’s programme at a time when global investment migration is undergoing heightened scrutiny and rapid shifts in regulatory expectations.

The Board exercised active oversight over policy direction, risk management, and compliance standards throughout the year. Our decisions were grounded in preserving the integrity and reputation of the Programme while ensuring that the CIP remains competitive and aligned with international best practices. In this regard, we continue to work with our stakeholders such as our fellow OECS programme participants, the English Government, the European Union, and the American Treasury Department to ensure standardised and stringent compliance, risk, and due-diligence policies. The strength of the Programme’s performance reflects the effectiveness of these governance measures, coupled with the Unit’s disciplined administrative execution.

A central element of the Board’s mandate is to ensure that the Programme contributes meaningfully to national priorities. In this regard, EC\$86 million was transferred to the Government of Saint Lucia during the fiscal year, supporting development initiatives that directly enhance the lives of our citizens. This reflects the CIP’s critical role in the national development agenda and highlights the importance of continued strategic stewardship.

We also oversaw important institutional strengthening efforts. Enhancements to compliance systems, staff development, technology upgrades, and operational

\$402.2 M

Revenue earned while reaffirming its role as a stable, credible, and transformative pillar of Saint Lucia’s national development.

capacity were encouraged and supported by the Board. These investments ensure that the Programme remains resilient, adaptable, and well-positioned to meet future demands. Strong governance depends on a strong institution, and the Unit’s evolving capacity remains essential to sustaining the Programme’s long-term success.

Looking ahead, the Board remains fully committed to safeguarding the Programme’s global standing and advancing its strategic evolution. The competitive and regulatory landscape will continue to shift, and succeeding in this environment requires vigilance, foresight, and disciplined leadership. Our focus remains clear: to ensure that the CIP continues to serve the people of Saint Lucia by strengthening economic resilience, expanding opportunities, and enhancing national development.

On behalf of the Board, I extend sincere appreciation to the management and staff of the Citizenship by Investment Unit for their dedication, to our authorised agents and due-diligence partners for their continued collaboration, and to the Government of Saint Lucia for its guidance and support.

With confidence and a clear sense of responsibility, the Board reaffirms its commitment to the Continued Investment in People, ensuring that this Programme remains a force for national progress and a source of opportunity for generations to come.

Julian Charles | Chairman (Ag),

BOARD GOVERNANCE

Julian Charles | Deputy Chairman
Banking Veteran | Credit Risk Strategist | Former International Cricketer

A banking veteran with 30+ years of experience, Julian Charles has led retail and corporate lending, credit risk, and financial recoveries. He spent six years at CIBC and 27 years at Bank of Saint Lucia, holding senior roles such as Assistant Manager of Credit Risk at ECFH and Manager of Special Loans in the Recoveries Department. His deep knowledge of financial risk management makes him a key figure in the Caribbean banking sector.

Now serving as Acting Chairman of the Citizenship by Investment Board, Mr. Charles oversees governance, transparency, and strategic oversight in investment migration. He holds a Bachelor's in Banking and Finance from University of Manchester, a Bachelor of Laws (LLB) from University of Wolverhampton, and an MBA from Monroe College, Saint Lucia. A former West Indies B cricketer, he captained Saint Lucia and the Windward Islands, exemplifying leadership in both finance and sports.

Sean Alexander | Director
Assistant Superintendent, Royal Saint Lucia Police Force | National Security Expert

With over 30 years in law enforcement, Sean Alexander was an Assistant Superintendent of the Royal Saint Lucia Police Force (RSLPF) and a seasoned national security strategist. He has led key divisions, including the Criminal Investigations Department, Drug Unit, Central Intelligence Unit, and Major Crimes Unit. A recipient of the Commissioner's Certificate of Commendation, he has commanded the Dennery and Richford Police Stations and served as Head of Immigration, reinforcing Saint Lucia's border security framework.

As a Director on the Citizenship by Investment Board, Mr. Alexander ensures high-level security oversight in investment migration. He holds a Bachelor's in Criminal Justice from Monroe College and a Postgraduate Certificate in Security and Risk Management from Leicester University, with specialized training from the Colombian National Police and French Interior Ministry. His expertise continues to influence policy, security, and governance in Saint Lucia's evolving economic landscape.

George K. Charlemagne | Director
Legal Strategist | Crown Counsel | Governance & Policy Advisor

A seasoned practitioner in public office, George K. Charlemagne serves as Crown Counsel in the Attorney General's Chambers of Saint Lucia, specializing in civil, constitutional, and commercial law. He has represented the government of Saint Lucia in high-profile cases and advised on legislative and regulatory matters. Called to both the Saint Lucia and Trinidad & Tobago Bars in 2017, he also sits on statutory boards and national committees, shaping legal governance.

As a Director on the Citizenship by Investment Board, Mr. Charlemagne ensures legal compliance, due diligence, and policy oversight in investment migration. He holds an LLB with honors from UWI Cave Hill and a Legal Education Certificate from Hugh Wooding Law School, where he was on the Principal's Roll of Honor and received the Best Overall Performance Award. His sharp legal acumen continues to influence Saint Lucia's economic and governance landscape.

CEO'S
REPORT

Mc Claude Emmanuel
Chief Executive Officer

The 2024/25 period reflected what Continued Investment in People means in practice. The Citizenship by Investment Unit operated at a level that demanded teamwork, resilience and strong internal coordination as applications increased, global standards evolved and expectations of the Programme remained high. The dedication of our staff and the strength of our systems enabled us to meet these demands and deliver a year of meaningful progress.

During the period, the Unit processed 2,633 applications, including denials. This level of activity supported revenue of EC\$402.2M and resulted in a surplus of EC\$145.5M. Cash and cash equivalents at the end of the period stood at EC\$261M, demonstrating the Programme's financial stability. Due diligence revenue totalled EC\$200M, supported by increased application volume and comprehensive vetting work by our teams and partners.

Administrative fees from real estate increased to EC\$183.6M, while contributions to the National Economic Fund grew by 131 percent. Programme costs reached EC\$244.2M, driven by increases in due diligence and commission payments of EC\$109M each. Operating expenses totalled EC\$12.5M, reflecting intentional investments in technology upgrades, improved workflows, compliance strengthening and additional administrative support. These investments were necessary to manage higher activity and maintain the integrity of the Programme.

The year highlighted the importance of investing in

2.6K

Applications processed

Due diligence revenue

CONTINUED INVESTMENT IN PEOPLE THROUGH DELIVERY, ENGAGEMENT AND STRENGTHENED CAPACITY

our people and the partnerships that support our work. Staff in the Verification, Due Diligence and Compliance divisions took part in in person and virtual training to ensure alignment with international requirements. The Programme continued to rely on the cooperation of international due diligence firms, the Financial Intelligence Authority, local and regional law enforcement and our banking partners. Together, these partnerships ensured that every application received full and independent assessment before being reviewed by the Board of Directors.

A major area of emphasis this year was improved communication with the Saint Lucian public. Continued Investment in People also means strengthening the understanding and trust that citizens place in the Programme. We increased our presence across traditional and social media and rolled out targeted information initiatives. The I AM THE CIP campaign was a central part of this, presenting real stories and real individuals whose lives and communities are supported by CIP funded activity. This helped build a clearer connection between the Programme's financial results and its national impact.

International engagement remained steady. Guided by the Beyond the Passport message, we continued to promote Saint Lucia as a complete destination. The Unit instructed all marketing partners to discontinue the promotion of visa free access and instead focus on the country's stability, regulatory strength and investment environment. Staff supported this work

through consistent engagement with authorised agents and industry partners across multiple markets.

Operational capacity continued to improve. Updates to our technology, workflow design and internal coordination helped us manage higher volumes while maintaining high compliance standards. The performance of the staff throughout this period reflects their professionalism and commitment and remains central to the Programme's success.

As we move into the 2025/26 period, the Unit will continue strengthening its processes, expanding its presence in key international markets and enhancing its communication with the people of Saint Lucia. Preparations have also begun for the Caribbean Investment Summit, which Saint Lucia will host from May 6 to 9, 2026. This will provide a valuable platform to showcase the Programme, the country and the team responsible for its operation.

I extend sincere appreciation to my amazing team at the Citizenship by Investment Unit, the Board of Directors, the Government of Saint Lucia and our license partners. Their dedication, cooperation and expertise shaped the achievements of this year and supported the continued investment we make in our people and our country.

Citizenship By Investment

DEPARTMENT OVERVIEW

Office of the Chief Executive Officer (CEO)

The Office of the CEO provides strategic leadership, ensuring policy alignment with national development goals while overseeing efficient operations, regulatory compliance, and innovative strategies to enhance the program's global appeal and credibility.

Human Resources (HR) Department

The Human Resources Department fosters a dynamic and inclusive work environment by prioritizing talent acquisition, employee engagement, and operational efficiency to build a high-performing team that upholds integrity and international standing.

Verification Department

The Verification Department plays a crucial role in the initial compliance phase by reviewing applications for completeness and accuracy, ensuring adherence to the Citizenship by Investment Act, with compliant applications advancing to the Due Diligence stage while non-compliant ones are flagged.

Due Diligence Department

The Due Diligence Department assesses applicants' suitability for citizenship through comprehensive background checks, risk profiling, and enhanced measures such as third-party verifications, regional intelligence reviews, and Financial Intelligence Authority (FIA) investigations to uphold the integrity of the application process.

Processing Department

The Processing Department manages post-decision deliverables by issuing notification letters and Citizenship Certificates to applicants, assessing applications from Promoters and Authorized Agents, and overseeing the issuance of their licenses with accuracy and efficiency.

Alien Landholding Department

The Alien Landholding Department regulates land acquisition by non-nationals under the Alien Landholding Act, ensuring compliance with Saint Lucia's property laws through applicant vetting, due diligence, Board reviews, and license enforcement, while supporting the integrity of the Citizenship by Investment program.

IT Department

The IT Department enhances operational efficiency through infrastructure upgrades, network improvements, hardware refresh, and the development of CIP Portal V2.0, providing a faster, more user-friendly experience with streamlined workflows.

Finance Department

The Finance Department ensures the financial integrity and sustainability of the Citizenship by Investment Unit by managing budgeting, accounting, reporting, and auditing while overseeing fund collection, regulatory compliance, and financial analysis to support strategic planning and economic benefits for Saint Lucia.

Administrative Department

The Administrative Department manages correspondence, maintains applicant records, coordinates with stakeholders, and facilitates the timely processing of citizenship applications while ensuring accuracy, confidentiality, and professionalism to support the overall efficiency of the CIP.

Minister's Policy Overview

Honourable Dr. Ernest Hilaire

*Minister with Responsibility for the
Citizenship by Investment Programme*

**Strengthening
Our Nation
Through the
Stewardship of
Our People**

The 2024/25 year invited us to reflect on where we stand as a nation and the direction we wish to pursue. The Citizenship by Investment Programme holds a unique position within that national journey. It supports the country in moments of economic uncertainty, it strengthens our institutions and it contributes to the well-being of our people. As Minister with responsibility for the Programme, I remain guided by the conviction that national development must always be shaped by fairness, dignity and respect for those we serve.

This year's theme, Continued Investment in People, reflects the vision of the Government of Saint Lucia. It speaks to a belief that the progress of a country is measured by the condition of its citizens. During the fiscal year, a total of EC\$86 million was transferred to the Government of Saint Lucia from the Unit's surplus, including EC\$35.7 million allocated to the National Economic Fund. In addition, EC\$44 million was remitted to the Government from direct investments to the National Economic Fund, together with EC\$11.8 million from bond investments. As a result, total remittances to the Government of Saint Lucia for the fiscal year amounted to EC\$141.8 million. These resources support the work of Government in education, health, community development, infrastructure and social support. They help us expand opportunity and give strength to the aspirations of our people.

The international climate for programmes of this nature has been marked by rising expectations and close attention to governance. The Government of Saint Lucia recognises the importance of this moment. We have responded by reinforcing our standards and strengthening our cooperation with regional partners. We stand with the countries of the Caribbean that have committed themselves to responsible administration, transparency and respect for global expectations. Our objective is to ensure that this Programme serves our nation with honour and protects the standing of Saint Lucia among the community of nations.

While the wider world examines these initiatives, our focus remains steady. We continue to support the institutions that guard the integrity of our Programme. The work carried out this year by the Citizenship by Investment Unit, by our due diligence partners, by the Financial Intelligence Authority and by our enforcement agencies reflects a commitment to public trust and national security. Their collective efforts ensure that the decisions taken in this Programme reflect the values of our country.

Yet the impact of this Programme is felt most clearly in the daily lives of our people. It strengthens the capacity of the state to respond to the needs of communities. It assists in the creation of work, the improvement of public services, the development of infrastructure and the support of vulnerable groups. It allows our country to plan confidently for the future and to invest in the potential of its people. This is the true measure of its value.

As we look ahead, the Government of Saint Lucia will continue to advance the legislative and policy reforms required to safeguard the Programme. We will work to strengthen regional cooperation and deepen the engagement of international partners. The hosting of the Caribbean Investment Summit in May 2026 will provide an important platform to present our progress and to shape the regional conversation about the future of these programmes.

I offer sincere appreciation to the Chairman, the Board of Directors, the Chief Executive Officer and the staff of the Unit. I also acknowledge our regulatory and international partners for their ongoing cooperation. Together, we remain committed to a Programme that supports national advancement and reflects the hopes of the people of Saint Lucia.

We continue to support the institutions that guard the integrity of our Programme."

The Honourable Dr Ernest Hilaire
 Minister with Responsibility for the
 Citizenship by Investment Programme

Executive Summary Financial Performance

Financial Performance Commentary
For the Fiscal Year Ended March 31, 2025

Overview

The fiscal year ended March 31, 2025, marked a period of strong performance and meaningful progress for the Citizenship by Investment Unit. Amid a dynamic, challenging, and increasingly competitive global environment, the Unit demonstrated resilience and adaptability, achieving significant growth in revenue and strengthening its overall financial position.

This achievement is particularly noteworthy given the broader macroeconomic challenges that characterized the year. Global inflationary pressures, shifts in regional regulatory standards, and heightened scrutiny within the investment migration industry collectively demanded agility, foresight, and disciplined execution. Through strategic initiatives and targeted operational enhancements, the Unit not only mitigated these challenges but capitalized on emerging opportunities to sustain and expand its market presence.

The implementation of process efficiencies, greater digital integration, and an emphasis on accountability and service excellence contributed to improved turnaround times and stakeholder satisfaction. These advances were supported by ongoing collaboration with authorized agents, external partners, and government agencies, ensuring the continued integrity and competitiveness of the programme.

Overall, the fiscal year under review reflected the Unit's steadfast commitment to sound governance, innovation, and continuous improvement. The results underscore a clear trajectory of growth, built on a foundation of strategic focus and operational excellence, positioning the Unit for sustained success in the years ahead.

Key Financial Highlights

- Surplus : EC\$145.5M, up 62% (EC\$55.5M) over year 2024.
- Gross revenue: EC\$402.2M versus EC\$240.2M in 2024. Overall increase of 67% (EC\$162.1M).
- Programme costs: EC\$244.2M, up 70% (EC\$101M) versus year 2024.
- Operating expenses: EC\$12.5M, up 84% (EC\$6M) over year 2024.
- Cash and Cash Equivalents: EC\$261M as of March 31, 2025 versus EC\$146M as at March 31, 2024.
- Total assets : EC\$266.3M, increased 76% (EC\$115M) versus year 2024.
- Total liabilities: EC\$138M, increased 68% (EC\$55M) versus year 2024.
- Total equity: EC\$128.5M, up 86% (EC\$59M) over year 2024.
- Government Distribution: EC\$86M, up 47% (EC\$28M) over year 2024.

Surplus

The substantial growth in surplus for the fiscal year was primarily attributable to a marked increase in the volume of applications received. This surge in activity resulted in record revenue performance, with administrative fees and due diligence fees being the key drivers.

Revenue Performance

Total revenue for the year reached EC\$402.2 million, representing a robust 67% increase compared to the previous fiscal period. This performance was primarily supported by strong growth in administrative fees from real estate, which totalled EC\$183.6 million — a 100% increase (EC\$92 million) over the prior year. Revenue from due diligence fees also performed solidly, increasing to EC\$200 million, an improvement of 50% (EC\$67 million) from 2024.

Contributions to the National Economic Fund (NEF) recorded a notable turnaround, with revenue increasing by 131% or EC\$6.2 million compared to the previous year. This positive outcome signals renewed investor confidence and heightened interest in this investment option, further contributing to the overall strong revenue performance.

REVENUE 2025

Programme Costs

Programme costs are largely driven by the volume of applications received, which directly impacts due diligence fees paid to service providers, as well as the level of qualifying investments that give rise to commission payments. For the reporting period, total programme costs exceeded the prior year by approximately 70%, with both commission payments and due diligence expenses amounting to EC\$109 million each. This increase reflects the significant growth in programme activity and the corresponding rise in related operational obligations.

OPERATING EXPENSES 2025

Operating Expenses

Operating expenses for the year increased by 85% compared to the prior year. This notable increase was primarily attributed to higher programme activity, particularly the growth in due diligence processing and the related administrative support required to manage increased application volumes. Additional contributing factors included investments

in technology upgrades, process enhancements, and strengthened compliance and monitoring frameworks to support the programme's continued integrity. The increase also reflects ongoing efforts to bolster operational capacity through targeted staffing and training initiatives. While the overall expenditure was higher, these expenditures were critical to maintaining service standards, improving efficiency, and supporting the sustained growth of the programme.

Balance Sheet and Cash Flow

The Unit continued to demonstrate financial stability, maintaining a strong Balance Sheet with total assets of EC\$266.3M and net assets of EC\$128.5M. Operating cash flows remained robust at EC\$211.4M, reflecting the Unit's ability to generate consistent, sustainable inflows from its core activities. This solid cash position not only supported ongoing operational requirements but also enabled strategic investments in capital projects aimed at strengthening institutional capacity and long-term resilience. The Unit's healthy liquidity profile underscores its prudent financial management practices and positions it well to meet future obligations and pursue growth initiatives.

Outlook

Looking ahead, the Unit remains focused on sustainable growth, technological advancements, and value creation for stakeholders. While we anticipate external challenges as the investment migration industry is very dynamic and competitive, we are confident in our strategic direction for FY26 and beyond.

Key Takeaways from Exiger Training

Strengthening Compliance Capacity

During the reporting period, the Unit continued to prioritize the enhancement of its compliance function through targeted training initiatives. From September 15–18, 2025, verification and due diligence officers participated in a specialized industry program in Toronto, Canada, designed exclusively for residency and citizenship by investment professionals.

This training, provided on a complimentary basis, offered valuable opportunities for staff to:

- Network and exchange perspectives with international peers

- Advance their analytical skills in applying a risk-based approach
- Explore case studies highlighting best practices and common challenges
- Strengthening awareness of methodologies and the cultural context shaping due diligence

This initiative ensures that our compliance framework remains aligned with international standards, supporting the integrity, transparency, and resilience of the Citizenship by Investment Unit.

Key Takeaways

from Globe Visa Global Citizen Conference

The Citizenship by Investment Unit (CIP Saint Lucia) participated in the GlobeVisa Global Citizen Conference 2025, held in Singapore. This prestigious event brought together international policymakers, industry leaders, and service providers in the fields of investment migration, global citizenship, and residence planning. The conference served as a strategic platform for promoting Saint Lucia's Citizenship by Investment Programme, sharing best practices, and engaging with global stakeholders.

The conference featured keynote presentations, panel discussions, and networking sessions, with focus areas including:

- Trends and developments in the global citizenship and residence sector.
- Strengthening due diligence and international compliance procedures.

- Strategies to attract and retain high-net-worth investors.
- Regional and international collaboration among Citizenship by Investment Units (CIUs).

CIP Saint Lucia's Chief Executive Officer, Mr. Mc Claude Emmanuel, actively engaged with international partners, including law firms, investment advisors, and licensed agents, highlighting the programme's unique advantages and promoting Saint Lucia as a premier investment migration destination.

Participation in the GlobeVisa Global Citizen Conference 2025 provided CIP Saint Lucia with critical exposure, strengthened its global network, and reaffirmed the Unit's commitment to transparency, innovation, and excellence in managing the Citizenship by Investment Programme.

Saint Lucia at Expo 2025 Osaka

Showcasing Our Nation on the Global Stage

The **Citizenship by Investment Unit (CIP Saint Lucia)** is proud to announce its official participation in the **World Expo 2025 Osaka**, one of the world's most prestigious global exhibitions. This year's Expo carries the theme "Designing Future Society for Our Lives" and presents an unparalleled platform for Saint Lucia to showcase its innovation, culture, investment potential, and forward-thinking vision to an international audience.

CIP **Saint Lucia** is well represented at **Expo 2025**, reinforcing our commitment to transparency, global engagement, and sustainable development. Our pavilion is designed to highlight the strengths of Saint Lucia's Citizenship by Investment Unit, presenting it as a world-class opportunity for global citizens seeking security, mobility, and meaningful contribution to a sovereign nation.

Being held in **Osaka, Japan**, the Expo will run for six months and is expected to attract over 28 million visitors. Saint Lucia's presence ensures that we are part of global conversations on sustainability, economic development, and cultural diplomacy. Through partnerships and support, including accessibility enhancements such as the **Japan Rail Pass**, the Expo becomes an unforgettable and immersive experience.

As we continue preparations, the Citizenship by Investment Unit remains committed to delivering a successful and impactful representation of Saint Lucia at this historic event. We are actively engaged in finalizing pavilion operations, booth design, promotional material, and staffing strategies to ensure that our participation leaves a lasting impression on the global stage.

Henley & Partners

Global Citizenship Conference 2025

Dates: November 2nd–4th, 2025

The Citizenship by Investment Unit (CIP Saint Lucia) participated in the 19th Annual Henley & Partners Global Citizenship Conference (GCC), held at The Dorchester in London, United Kingdom. This flagship event brought together international leaders, policymakers, and industry experts from the fields of investment migration, wealth management, and economic development. The conference served as a premier platform for dialogue on the evolving landscape of global citizenship and residence programmes.

The three-day event featured a series of high-level discussions, presentations, and panel sessions addressing emerging trends, policy developments, and global challenges shaping the investment migration industry.

Key topics included:

- The future direction of global citizenship and residence programmes.
- Enhanced due diligence practices and international compliance standards.
- Strategies to strengthen investor confidence and programme competitiveness.
- Opportunities for inter-governmental collaboration and regional harmonisation among Caribbean jurisdictions.

CIP Saint Lucia's participation in the Henley & Partners Global Citizenship Conference 2025 provided valuable visibility and engagement within the global investment migration community. The Unit's active involvement underscored its ongoing commitment to excellence, transparency, and innovation in administering Saint Lucia's Citizenship by Investment Programme.

Caribbean Regional Compliance Association (CRCA) Conference 2025

Dates: 23rd & 24th October 2025

The Citizenship by Investment Unit (CIP Saint Lucia) participated in the Caribbean Regional Compliance Association (CRCA) Conference, held in St. Kitts, which brought together regional leaders, regulators, and compliance professionals under the theme “High Five: Innovate, Negotiate, Educate, Collaborate, Regulate.”

The event reaffirmed the Caribbean’s position as one of the world’s most compliant regions, despite challenges such as the loss of correspondent banking relationships. Discussions emphasized that compliance is not a barrier, but a strategic enabler of sustainable financial growth and international credibility.

Keynote speakers, including the Prime Minister of St. Kitts and Nevis and the Attorney General of the Turks and Caicos Islands, underscored the importance of regional collaboration, proactive regulatory frameworks, and continued resilience in global financial governance.

Topics covered included the integration of Artificial Intelligence (AI) in compliance, work-life balance in the profession, and the need for continuous education and self-development among compliance practitioners. Speakers stressed that regulation serves as a catalyst for growth, ensuring market integrity and trust.

The conference concluded with a call for compliance professionals to uphold integrity, accountability, and collaboration, reinforcing the pivotal role of AML/CFT frameworks in maintaining the Caribbean’s financial stability and reputation.

CIP Saint Lucia’s participation reflected its commitment to upholding the highest standards of compliance and contributing to the ongoing strength and credibility of the region’s financial systems.

Due Diligence Work for St. Lucia

S-RM Testimonial

S-RM celebrated its 20th anniversary in 2025. What started as a small, London-based firm with expertise in crisis management, is now an industry leading consultancy with nine global offices specialising in diverse services within the Corporate Intelligence and Cyber Security industries.

We joined the Investment Migration industry as due diligence providers a decade ago and have been supporting the Citizenship by Investment Programme of Saint Lucia for eight years.

We pride ourselves on building trusted relationships and have during this time formed a close, collaborative partnership with CIP Saint Lucia that has continued to evolve and innovate in 2025.

A year of support and growth

Over the past year, S-RM has continued to deliver due diligence reports and conduct interviews as part of the programme's assessment process. During this period, the range of languages in which interviews are conducted have been expanded to better accommodate the needs of applicants from different backgrounds.

This adjustment reflects our team's effort to ensure that information is gathered as clearly and accurately as possible and has resulted in further enabling the programme to assess applications with greater understanding and insight. Our deliverables are optimised following consistent reviews of our own as well as feedback from CIP Saint Lucia, including templates to allow findings to be presented in optimum form.

S-RM continues to provide its ongoing monitoring service, including the introduction of new sanctions and political shifts across jurisdictions. Our monitoring service tracks news media in real time from over 100,000 publicly available blogs, RSS feeds, magazines, newspapers, journals, press releases, and websites. This coverage spans worldwide, across more than 90 languages and is human led to ensure the quality of the service and accuracy of the information. This allows CIP Saint Lucia to remain informed of developments relevant to its applicants, supporting informed decision-making.

At S-RM, we operate a vast and varied network of sources worldwide that supplement our in-house expertise. These contacts are directed according to the specific requirements of each investigation and their methodology and quality consistently reviewed. S-RM prides itself on ensuring enquiries are tailored and handled by carefully selected sources as opposed to any form of aggregation services. This constantly developing network supplements our institutional expertise enabling us to present complex information clearly and confidently, cutting through the noise for CIP Saint Lucia to make well-informed decisions.

Partnership in action

This year we were honoured to welcome members of CIP Saint Lucia to our offices in London, together with other CBI and RBI professionals, for five days of training and knowledge sharing. The team had the opportunity to dive deeper into a range of topics from the fundamental principles of due diligence and OSINT to specialist subjects highlighting our observations of risk in specific jurisdictions and sectors, examples of which include, the gambling industry in Turkey or organised crime in China.

Throughout the year, S-RM's relationship with CIP Saint Lucia has continued to be one focused on collaborative partnership, professionalism, and a shared commitment to due diligence and compliance excellence. We take an active role in informing programmes of emerging political and economic shifts and their likely impact. Beyond delivering due diligence services, we provide expert, context-rich insights that directly inform stronger, more forward-looking decision-making.

Our commitment in 2026

As we look ahead to 2026, we are developing new due diligence services that thoughtfully harness the power of AI while continuing to refine our existing platforms to enhance the client experience. As we innovate, our work remains firmly grounded in human-led expertise. We continue to invest in a dedicated team whose growing capabilities elevate our services beyond traditional due diligence, delivering thoughtful, expert-driven insight. Together with this focus, we remain committed to deepening our relationships, fostering a trusted and collaborative environment where professionals share knowledge, elevate best practices, and strengthen the standards of integrity, insight, and innovation.

FACT Testimonial

Working with the St Lucia CIP team has been an outstanding experience. Over the course of delivering 815 due diligence reports and interviews in 2025, their professionalism and expertise have been evident at every stage. Communication with the CIU has always been smooth; they are consistently easy to reach for enquiries, and respond promptly, ensuring that our collaboration runs efficiently.

The CIP team demonstrates a strong commitment to quality by diligently following up on any areas of concern or ambiguity. They provide additional documentation when needed and are always clear in their requests for further information, which greatly streamlines our processes. Their proactive approach

extends to bridging gaps between our team and other stakeholders, ensuring that outstanding tasks are addressed and that all necessary information is gathered.

Additionally, the CIU's engagement during training sessions which in 2025 covered due diligence methods, comprehensive threat assessments, and banking in the Middle East, reflects their dedication to continuous learning and development. Their insightful questions and eagerness to expand their knowledge base further highlight their professionalism and collaborative spirit.

Lucy Crotty
Head of Due Diligence

Our people are our greatest asset. Over the past year we continued to invest strategically in staff development, wellbeing, and engagement to build capability, retain talent, and drive organizational performance. Key priorities included targeted training and professional development, clear career pathways, and enhanced learning resources that enabled employees at all levels to broaden skills, assume greater responsibilities, and contribute more effectively to our strategic goals.

We strengthened recruitment and onboarding to attract diverse, high-caliber candidates and accelerate their integration into the organization. Performance management and succession planning were refined to align

individual goals with organizational priorities, recognize achievement, and prepare future leaders. Investments in leadership coaching and managerial training improved team effectiveness and decision-

making across departments.

Employee wellbeing and a positive workplace culture were central to our approach. We expanded flexible working arrangements, promoted mental and physical health initiatives, and enhanced employee support services. These measures increased engagement, reduced burnout, and supported sustained productivity.

HUMAN RESOURCES INVESTING IN OUR PEOPLE AND FOSTERING A BALANCED WORKPLACE

We also embraced a “work hard, play hard” philosophy that balances high performance with meaningful recognition and team cohesion. Regular team-building activities, celebratory events, and informal social opportunities complemented performance incentives, reinforcing collaboration, morale, and a sense of belonging. This balance has helped maintain motivation while preserving the energy and creativity essential for long-term success.

Looking ahead, we will continue to deepen investments in learning and wellbeing, strengthen inclusive leadership, and refine policies that support flexibility and work life balance, ensuring our workforce remains resilient, motivated, and prepared to meet future challenges.

CELEBRATING MEN ON INTERNATIONAL MEN'S DAY

As part of our commitment to fostering an inclusive and appreciative environment, we take this opportunity to celebrate the men who contribute tirelessly to our organization and community. International Men's Day provides a platform to recognize their dedication, resilience, and positive influence across all facets of our work and society.

We acknowledge that the strength and support of our male colleagues, leaders, and community members are vital to our collective success. Their leadership, professionalism, and unwavering commitment inspire us all to strive for excellence and unity.

On this special day, we extend our heartfelt appreciation to every man who plays a pivotal role in shaping a brighter, more inclusive future. Let us continue to support, uplift, and celebrate each other every day.

F +1 758 452 1061

To the Board of Directors of the Citizenship by Investment Unit (CIU)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the **Citizenship by Investment Unit** (the "CIU" and or "Unit"), which comprise the statement of financial position as at March 31, 2025, and the statement operations, statement of net assets and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Unit as at March 31, 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Unit in accordance with the ethical requirements that are relevant to our audit of the financial statements in the Eastern Caribbean, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Other information consists of the information included in the Unit's 2025 Annual Report other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

The Unit's 2025 Annual Report is expected to be made available to us after the date of this auditor's report. Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by IASB, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Unit's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Unit or to cease operations, or has no realistic alternative but to do so.

Those charged with governance is responsible for overseeing the Unit's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast material doubt on the Unit's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Unit to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and material audit findings, including any material deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***1. Incorporation and principal activity**

The **Citizenship by Investment Unit** (the “CIU” and or “Unit”), is a statutory body of the Government of Saint Lucia which was established on August 24, 2015, under the Citizenship by Investment Unit (CIU) Act No. 14 of 2015 and subsequently amended by Statutory Instrument No.1 of 2017. The Unit commenced operations on October 1, 2015.

The Unit’s primary function is for the general administration of the Citizenship by Investment (“CIP”) program of Saint Lucia.

The Unit’s registered office and principal place of business is located on the Poinsettia Road, Vigie, Castries, Saint Lucia.

The financial statements were approved by the Board of Directors and authorised for issue on **November 20, 2025**.

2. Summary of material accounting policies**(a) Overall policy**

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been constantly applied to all years presented unless otherwise stated.

Basis of preparation

The financial statements of the **Citizenship by Investment Unit (CIU)** have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”) and under the historical cost convention.

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain accounting estimates. It also requires management to exercise its judgment in the process of applying the Unit’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are material to the financial statements are disclosed in Note 3.

Notes to the Financial Statements

For the Year Ended March 31, 2025

(Expressed in Eastern Caribbean Dollars)

2. Summary of material accounting policies (cont'd)

(b) Foreign currency translation

Foreign exchange risk

The Unit trades internationally and is exposed to foreign exchange risk arising from various currency exposures. Foreign Exchange risk arises from commercial transaction, recognised assets and liabilities.

The Unit manages its foreign exchange risk by ensuring that the net exposure in foreign assets and liabilities is kept to an acceptable level by monitoring currency positions. The Unit further manages this risk by maximising foreign currency earnings and holding foreign currency balances.

The Unit exposure to foreign exchange risk is minimal as the majority of its foreign transactions are quoted in US dollars, which has been formally pegged to the EC dollars at EC\$2.70 = US\$1.00 since 1976.

Functional and presentational currency

Items included in the financial statements of each reporting unit of the Unit are measured using the currency of the primary economic environment in which the entity operates (the functional currency).

The financial statements are presented in thousands of Eastern Caribbean dollars, which is the Unit's functional and presentational currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency at the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses, which result from the settlement of foreign currency transactions and from the retranslation of monetary assets and liabilities denominated in foreign currencies, are recognised in the income statement.

Applying IAS 21 at the end of the reporting period, the carrying amount of the cash in bank, is translated into the functional currency at the closing rate. The Unit has chosen to present the resulting foreign exchange differences within the line item 'Foreign currency translation'.

The foregoing exchange gains and losses which are recognised in the income statement are included in operation expenses in Note 13.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***2. Summary of material accounting policies (cont'd)****(c) New standards, amendments to standards and interpretations**

- (i) *New standards, amendments and interpretations effective for the annual periods beginning on or after April 1, 2024*

Classification of Liabilities as Current or Non-current (Amendments to IAS)

The amendments clarify a criterion in IAS 1 for classifying a liability as noncurrent: the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

The amendments:

- specify that an entity's right to defer settlement must exist at the end of the reporting period
- clarify that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement
- clarify how lending conditions affect classification, and
- clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

Lease Liability in a Sale and Leaseback (Amendments to IFRS 16)

After the commencement date of the leaseback, the seller-lessee applies *Lease Liability in a Sale and Leaseback (Amendments to IFRS 16)* to measure the amount of the right-of-use (RoU) asset and lease liability. In applying this Standard to the situation where there are variable lease payments not determined by an index or rate, the seller-lessee determines 'lease payments' in a way that the seller-lessee does not recognise any gain/loss on the RoU asset retained.

Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7)

An entity must disclose information about its supplier finance arrangements that enables users to assess the effects of those arrangements on the entity's exposure to liquidity risk.

Notes to the Financial Statements

For the Year Ended March 31, 2025

(Expressed in Eastern Caribbean Dollars)

2. Summary of material accounting policies (cont'd)

- (i) *New standards, amendments and interpretations effective for the annual periods beginning on or after April 1, 2024*

Non-current Liabilities with Covenants (Amendments to IAS 1)

The amendments improve the information an entity provides when its right to defer settlement of a liability for at least twelve months is subject to compliance with covenants. The amendments were also a response to stakeholder concerns about the classification of such liabilities.

The amendments clarify that the covenant:

- Must require compliance with the stated conditions on or before the end of the reporting period if it is to affect whether that right exists at the end of the reporting period, even if the compliance with the covenant is assessed only after the reporting period (classification therefore affected).
- Does not affect whether the right exists at the end of the reporting period if an entity is required to comply only after the reporting period (classification unaffected).

These amendments do not have a material impact on these Financial Statements and therefore the disclosures have not been made.

- (ii) *Standards, amendments and interpretations that are issued but not effective and have not been early adopted are as follows (cont'd):*

- Lack of Exchangeability (Amendments to IAS 21)
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and 7)
- IFRS 18 'Presentation and Disclosure in Financial Statements'
- IFRS 19 'Subsidiaries without Public Accountability: Disclosures'

These amendments are not expected to have a significant impact on the financial statements in the period of initial application and therefore no disclosures have been made.

(d) Cash

Cash are carried on the statement of financial position at cost. For the purpose of the statement of cash flows, Cash comprise balances with a maturity period of three months or less from the date of acquisition including cash on hand and deposits held on call with banks.

(e) Accounts receivable

These amounts arose as the applicants made partial payments towards their qualifying investments after being granted citizenship. Accounts receivable is carried at amortised cost less allowance for impairment.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***2. Summary of material accounting policies (cont'd)****(f) Impairment of financial assets**

In relation to the impairment of financial assets, IFRS 9 requires the use of a forward-looking expected credit loss ("ECL") approach. The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or "LTECL"); unless there has been no material increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Given that the accounts receivable are short-term in nature, the selection of either option would have the same effect. An ECL general approach was used based on:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date, about past events, current conditions and forecasts of future economic conditions.

The key elements of the ECL calculations are outlined below:

- Probability of Default: this measures the instances of default over a period, divided by the number of payments expected at the beginning of a period
- Loss Given Default: This represents amounts never collected or amounts written off once a default event occurs.
- Exposure at Default: This represents the outstanding amounts collectible at default.

Based on the assessment performed above, no previous or current instances of losses were identified and a low probability of material losses occurring in the future arose. As such, no expected credit losses were recorded.

(g) Property and equipment

Property and equipment are stated at historical cost net of accumulated depreciation and impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the item.

Subsequent costs are included in the asset's carrying amount or recognised as an asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Unit and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of operations during the financial period in which they are incurred.

Depreciation is calculated on the straight-line basis to allocate the cost of each asset to their residual value over their estimated useful lives as follows:

Furniture, fixtures and appliances	10 years
Computer equipment	3 years
Leasehold improvements	3 years (lease term)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of operations.

Notes to the Financial Statements

For the Year Ended March 31, 2025

(Expressed in Eastern Caribbean Dollars)

2. Summary of material accounting policies (cont'd)

(h) Lease assets

The Unit as a lessee:

For any new contracts entered into, the Unit considers whether a contract is, or contains a lease. A lease is defined as 'a contract or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition, the Unit assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Unit;
- the Unit has the right to obtain substantially all of the economic benefit from use of the identified asset throughout the period of use, considering the rights within the defined scope of the contract; and,
- the Unit has the right to direct the use of the identified asset throughout the period of use. The Unit assess whether it has the right to direct 'how and for what purpose' the asset is used for the period of use.

At lease commencement date, the Unit recognises a right-of-use asset and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Unit, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

Measurement and recognition of leases as a lessee

The Unit depreciated the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of useful life of the right-of-use asset or the end of the lease term. The Unit also assesses the right-of-use asset for impairment when such indicator exists.

At the commencement date, the Unit measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available, or the Unit's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit or loss, if the right-of-use asset is already reduced to zero.

The Unit has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term. On the statement of financial position, right-of-use assets have been included in Property, plant and equipment and lease liability have been included in lease payables.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***2. Summary of material accounting policies (cont'd)****(i) Impairment of non-financial assets**

The carrying amounts of the Unit's property and equipment are reviewed at each reporting date to determine whether there are any indicators of impairment. If any indicators exist, the asset's recoverable amount is estimated.

The recoverable amount of the asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of operations.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

(j) Accounts payable

Accounts payable are classified as current liabilities if payment is due within one year or less. Accounts payable are initially recognised at fair value and subsequently measured at amortised cost.

(k) Revenue recognition

To determine whether to recognise revenue, the Unit follows a 5-step process:

1. Identifying the contract with a customer.
2. Identifying the performance obligation.
3. Determining the transaction price.
4. Allocating the transaction price to the performance obligation in the contract.
5. Recognising revenue when/as performance obligation(s) are satisfied.

The Citizenship by Investment Unit ("CIU") in accordance with IFRS 15 recognises that the performance obligation is satisfied upon the issuance of a certificate of citizenship after a qualifying investment is made by an applicant. Revenue is recognised upon the receipt of the qualifying investment from the applicant after citizenship has been granted by the Board.

Donations to the National Economic Fund

When applicants apply for citizenship, one of the options available to them is that they can opt for a monetary donation into the Saint Lucia National Economic Fund. The minimum that has to be donated is US\$100,000 based on revised legislation to the CIU. Once the applicant has been granted citizenship and has been informed accordingly, the applicant will pay the amount into the Bank account of the Unit. Based on Statutory Instrument No. 1 of 2017 dated January 5, 2017, for every donation received from an applicant, 20% is retained by the Unit for marketing and promotion of the CIP and recognised as revenue, and the remaining 80% is transferred to the Government of Saint Lucia.

Notes to the Financial Statements

For the Year Ended March 31, 2025

(Expressed in Eastern Caribbean Dollars)

2. Summary of material accounting policies (cont'd)

(k) Revenue recognition (cont'd)

Processing fees

The processing fee per applicant is US\$2,000 and for each qualifying dependent US\$1,000. This is paid upon submission of the completed application to the CIU and recognised as revenue in the period it is paid.

Authorised Agents - application fees and license fees

Application fees arise when a company wishes to become an authorised agent so that they can assist applicants in applying for citizenship. The application fee is paid upon submission of the application and is non-refundable. Once the application has been approved, a licence is granted and the authorised agent pays the licence fee for a year. A licence is valid for one calendar year. The revenue from application fees and licence fees are recognised on submission of application.

Promoters - application fees and license fees

Application fees arise when a company wishes to become a promoter. The application fee is paid upon submission of the application and is non-refundable. Once the application has been approved, a licence is granted and the promoter pays the licence fee for a year. A licence is valid for one calendar year. The revenue from application fees and licence fees are recognised in the period in which it is earned.

Marketing agents

Marketing agents can only market CIP if they are registered and licensed to do so, thus a company wishing to do so would have to apply to become a marketing agent. A licence is valid for one calendar year. Marketing agents can choose to pay a lump sum in advance for future licenses. This is recorded as Advanced Deposits, and the amounts are recognised as revenue over the period in which it is earned.

Deferred government grant income

Grants related to depreciable assets are initially recorded as deferred income and are subsequently brought to income at the same rate as the assets to which they relate are depreciated. Other grants are recognised in the periods in which the expenses for which they were given are incurred.

Due diligence fees

The due diligence and background check fees per applicant are US\$8,000 and for each qualifying dependent over 16 years of age it is US\$5,000. This is paid upon submission of the completed application to the Unit and recognised as revenue in the period it is paid.

All fees are charged in accordance with the Citizen by Investment Act.

(l) Expenses

Expenses are recognised on an accruals basis.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***2. Summary of material accounting policies (cont'd)****(m) Related party transactions**

A party is related to the Unit if:

- (i) Directly or indirectly the party:
 - (a) Controls, is controlled by, or is under common control with the Unit:-
 - (b) Has an interest in the Unit which gives it material influence over the Unit:-
 - (c) Has joint control over the Unit.
- (ii) The party is a member of the key management personnel of the Unit.
- (iii) The party is a close member of the family of any individual referred to in (i) or (ii).
- (iv) The party is a post-employment benefit plan for the benefit of employees of the Unit or anybody that is a related party to the Unit.

The Unit's related party transactions are mainly with key management personnel and the Government of Saint Lucia, details of which are disclosed in Note 17.

(n) Provisions

Provisions are recognised when the Unit has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and the amount has been reliably estimated.

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to the passage of time is recognised as interest expense.

(o) Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment and/or remediation can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

(p) Subsequent events

Post-period events that provide additional information about the Unit's position at the reporting date (adjusting events) are reflected in the Unit's financial statements. Material post period end events which are not adjusting events are disclosed.

(q) Comparatives

Where necessary, comparative figures have been adjusted to conform with changes in the presentation of the current year.

Notes to the Financial Statements

For the Year Ended March 31, 2025

(Expressed in Eastern Caribbean Dollars)

3. Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a material risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Unit based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Unit. Such changes are reflected in the assumptions when they occur.

There are no estimates and assumptions that have a material risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

4. Financial risk management

In accordance with the provisions of International Financial Reporting Standard No. 7, disclosures are required regarding credit risk, liquidity risk, market risk, fair value of financial instruments and capital management.

(r) Credit risk

Credit risk arises from the possibility that counterparties may default on their obligations to the Unit. The Unit's maximum exposure to credit risk is indicated by the carrying amount of its financial assets.

The financial assets which may potentially expose the Unit to concentrations of credit risk consist primarily of cash. The Unit places its deposits with a highly reputable and regulated financial institutions and the receivables are due from applicants whose net worth has been reviewed and determined to be satisfactory. As such, management does not believe that material credit risk exists at March 31, 2025.

(s) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient Cash to meet contractual obligations. Management reviews cash flow forecasts on a regular basis to determine whether the Unit has sufficient cash reserves to meet future working capital requirements. Based on the available cash resources, the Unit is able to meet its obligations as they become due and as such, management does not believe that material liquidity risk exists at March 31, 2025.

(t) Market risk

Market risk is the risk that changes in market prices, such as interest and foreign exchange rates will affect the value of the Unit's assets, the amount of its liabilities and or the Unit's income. The Unit has minimal exposure to interest rate risk as it has no material interest-bearing financial assets or liabilities. The Unit exposure to foreign exchange risk is minimal as the majority of its foreign transactions are quoted in US dollars, which has been formally pegged to the EC dollars at EC\$2.70 = US\$1.00 since 1976.

Notes to the Financial Statements

For the Year Ended March 31, 2025

*(Expressed in Eastern Caribbean Dollars)***4. Financial risk management (cont'd)****(u) Fair value of financial instruments**

Fair values represent estimates of the consideration that would currently be agreed upon between knowledgeable, willing parties who are under no compulsion to act and are best evidenced by quoted market values, if they exist. None of the Unit's financial assets or liabilities are traded on formal markets and as such their fair values are assumed to approximate their carrying amounts.

(v) Capital management

The Unit's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can continue to collect funds on behalf of the Government of Saint Lucia. The unit has no material debt and the Unit is at low risk of capital inadequacy.

5. Cash

	2025 \$	2024 \$
Cash on hand	1,148	1,375
Cash at bank	259,885,637	137,752,889

	1,303,213	1,937,218

The Unit has a lease for office properties which is reflected on the statement of financial position as a right-of-use asset under property and equipment and lease payable under current and non-current liabilities. The Unit classified its right-of-use assets in a consistent manner to its property and equipment (Note 7).

For the lease mentioned above, there is a restriction that, unless there is written consent for the contractual right for the Unit to sublet the asset to another party, the right-of-use asset can only be used by the Unit. The lease is cancelable only if there is a breach of the covenants and with three months' written advance notice. The Unit must keep the premises in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Unit must insure items of property and equipment and incur maintenance fees on such items in accordance with the lease contracts.

Notes to the Financial Statements

National Economic Fund

During the year, the Unit received US\$20,524,160 or EC\$55,415,232 (2024: US\$8,883,110, or EC\$23,984,398) as monetary investments into the National Economic Fund. In accordance with Statutory Instrument No. 1 of 2017, dated January 5, 2017, 20% of this amount is allocated to the Unit for the purpose of covering marketing and promotional costs. As a result, a net total of US\$16,304,558 or EC\$44,022,307 was remitted to the National Economic Fund Board during the year ended March 31, 2025, which includes the prior year's balance of US\$1,282,769, or EC\$3,463,477. An outstanding balance of US\$1,325,781 or EC\$3,579,609 (Note 8), remained payable to the National Economic Fund as of March 31, 2025.

The Unit also remitted US\$13,229,684 or EC\$35,720,146 from its operating surplus to the National Economic Fund in support of the government's agenda. As a result, a total of US\$29,534,242 or EC\$79,742,453 was remitted to the National Economic Fund for the year ended March 31, 2025.

National Action Bond

Section 4, paragraph (a) of the Citizenship by Investment (Amendment) (No. 2) Regulations, Saint Lucia Statutory Instrument, 2022, No. 222, introduced a new government bond option for qualifying for citizenship under the investment program: the Government National Action Bond (NAB). Under this option, an applicant and their qualifying dependents may choose the Government Bond option at US\$ 300,000. The bond is non-interest bearing, with a holding period of five (5) years. This option was predominantly utilized throughout the year.
