- **Net operating balance** is equal to revenue minus expenses and indicates whether the government is able to sustain its current level of operations. The Government must aim for a surplus.
- **Net lending/borrowing** is equal to the net operating balance minus net acquisition of nonfinancial assets and is often referred to as the fiscal surplus/deficit. It indicates whether the Government is taking out resources from or giving resources to the economy.
- **Expense** is a decrease in net worth resulting from a transaction.
- **Revenue** is an increase in net worth resulting from a transaction.
- **VAT (Value Added Taxes)** is the tax on goods or services collected in stages by enterprises but ultimately charged in full to the final purchasers.
- **Interest payments** and **Grants** are paid on fixed dates as they are payments to external Government entities.
- **Taxes on international trade and transactions** are almost all import duties based on Cost, Insurance, and Freight (CIF) values.
- **Excise** is charged on goods sold in the country regardless of whether they were produced domestically or overseas.
- In terms of **revenue**, **grants** refer to funds for donor assisted projects provided by donors and also general budget support from donors.
- The **Government operations funded by donors'** numbers represent only revenue and expenses to and from the Government's central development fund account. Some donors continue to operate outside the Government system, so these numbers understate the total value of donor support to Vanuatu.
- **Net acquisition of domestic financial assets** is positive when the Government accumulates cash reserves and negative when it draws down on its overdraft.
- **Net incurrence of domestic financial liabilities** is positive when Government bonds are raised through auction and negative when they are retired (paid out).
- **Net incurrence of external liabilities** is positive when the Government draws down external loans and negative when principal on these loans is repaid.
- Figures for **compensation of employees** follow the pay days. The Government of Vanuatu runs a fortnightly pay system.
