INTRODUCTION

Mr. Speaker, Members of this Honourable House, Distinguished Guests, Fellow Dominicans at home and abroad, Good Morning.

Mr. Speaker, I rise to present the Budget for Fiscal Year 2024/2025, thankful for the Lord’s continuous blessings, mercies and protection over our people and our nation. His grace has guided and sheltered us. We are not afraid because we take comfort and inspiration from the words of **Isaiah 41** that God is with us and that he will strengthen and help us.

It is with this confidence, Mr. Speaker, that we continue to chart a path towards a progressive future for our citizens within a global environment beset by unprecedented social and economic challenges.

We in the Caribbean, continue to be disproportionately impacted by climate change and external shocks. The wars in Eastern Europe and the Middle East, global health crises and the debilitating effects of disasters, undermine social stability and economic performance.

These major events are causing supply chain disruptions and increasing costs of transportation, making it difficult for Small Island Developing States like Dominica to import essential goods at reasonable cost and contributing to inflation, which profoundly impacts the economy.

Mr. Speaker, climate change is an existential threat to our survival, impacting food security, health, and economic stability especially in our region. We need to look no further than Hurricane Beryl, an early-season Category 5 hurricane that wreaked havoc across many of our sister islands earlier this month. We express solidarity with the governments and people of the affected islands and extend heartfelt sympathies to the families who lost loved ones.

The devastation of property, displacement of people and loss of life and livelihoods are becoming all too common in a region bearing the brunt of a crisis, not of its making. These increasingly severe storms carry significant financial risk for our already strained economies, and we have had to divert valuable resources to address consecutive shocks and mitigate against the impact of climatic events.

Mr. Speaker, although this destruction caused by climate change is not as a result of our own doing, we are the ones who have had to bear the brunt of the impact and cost of reconstruction at a time when development assistance to our countries is not as readily available as it once was.

Since 2015, Government has borrowed a total of EC\$673.0 million to respond to natural disasters and the COVID-19 pandemic, that is \$112.1 million for Tropical Storm Erika; \$244.1 million for Hurricane Maria; and \$316.8 million to assist the country to manage and recover from the COVID-19 pandemic.

Notwithstanding these increasing financial burdens, we continue to shoulder the full weight of responsibility and shield our citizens from additional economic hardship.

Mr. Speaker, permit me at this time to update the Honourable House on our economic performance and outlook.

Economic Performance and Outlook

Mr. Speaker, irrespective of the challenges, the Government has remained steadfast in its mission to manage the recovery, and I am pleased that the economy has rebounded. The International Monetary Fund reported that while the world economy grew by an estimated 3.2 percent in 2023, Dominica’s economy saw growth of 4.7 percent during that same period.

This marks the third consecutive year of growth for the Dominican economy, following growth of 6.9 percent in 2021 and 5.6 percent in 2022. Additionally, the economy is projected to continue along its current trajectory with strong growth of 4.6 percent in 2024 plus at least 4.3 percent in 2025. This performance is being driven by the government’s ambitious Public Sector Investment Program, robust wholesale and retail trade, a steady rebound in tourism and increased agricultural production.

The IMF indicated that global inflation is expected to decrease from an average of 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025. Historically, Dominica’s inflation has remained below global levels due to the substitutional effects of local production and consumption. Therefore, according to the IMF, inflation in Dominica was lower than the global level averaging 3.5 percent in 2023 and it is expected to continue falling to an average of 2.8 percent in 2024.

We are encouraged by the results of the IMF’s assessment of the performance of the economy, and we do hope that this downward trajectory in inflation will be reflected in the cost of goods on supermarket shelves.

Mr. Speaker, in respect of the Government’s fiscal performance, preliminary data indicates that there has been a further improvement. The primary balance shifted from a deficit of 0.8 percent at the end of June 2023 to a surplus of 0.6 percent of GDP as of June 30, 2024. This is mainly due to a favorable economic climate which impacted positively on tax revenues, and deliberate action by Government to contain and manage recurrent expenditure. Tax revenues increased by 3.1 percent over the previous year while recurrent expenditure declined by 3 percent.

Although tax revenues are expected to increase further by 3.3 percent a primary deficit of 8.7 percent is forecasted for Fiscal Year 2024/2025, mainly due to a significant rise in capital expenditure for agriculture, digitalization, housing, the Roseau Enhancement Project, and the East Coast Road. However, beyond this fiscal year, as these projects come to an end and capital expenditure reduces, we expect improvements in fiscal balances as revenues continue to grow.

There was an increase of 2.4 percent in total disbursed outstanding debt compared to the previous year. Central Government’s debt is estimated at EC\$1,507.4 million, while government-guaranteed debt is estimated at EC\$140.3 million. Total debt to GDP is estimated to be 89.4 percent, with Central Government debt to GDP at 81.7 percent.

Mr. Speaker, it is certainly not easy for our small State to overcome the impacts of successive natural disasters, a global pandemic, global economic slowdown, supply chain and transportation issues without it significantly affecting our fiscal position and fiscal space. Any objective observer will admit that Dominica under the leadership of this Government has done a remarkable job, in the circumstances.

Mr. Speaker, we continue to direct our efforts toward implementing programmes and projects which promote long-term economic growth, enhance social protection and human development, build resilience and preserve the environment—all of these are key factors for sustainable development. Despite significant progress in these areas, our work is not yet finished.

It is against this backdrop that I present the **Budget Proposal for Fiscal Year 2024/2025** under the theme “**Partnering to build the platform for sustainable growth and development.**” This Fiscal Year’s Budget Proposal will advance current programmes and projects, and at the same time pursue new economic initiatives.

FISCAL YEAR 2024/2025 BUDGET PROPOSAL

Recurrent Expenditures

Mr. Speaker, for Fiscal Year 2024/2025, I propose a total recurrent expenditure of \$679.4 million, including those provided by law. Table 1 below contains the details.

Table 1: Recurrent Expenditure by Ministry/ Department

MINISTRY/DEPARTMENT	Total in (million)
Office of the President	1.2
Integrity in Public Office Commission	0.5
Public and Police Service Commission	0.4
Legislature	1.2
Audit Department	1.1
Ministry of National Security and Legal Affairs	60.6
Elections	1.9
Office of the Prime Minister	10.4
Ministry of Finance, Economic Development, Climate Resilience and Social Security	296.3
Ministry of Agriculture, Fisheries, Blue and Green Economy	9.0
Ministry of Education, Human Resource Planning, Vocational Training and National Excellence	70.7
Ministry of Housing and Urban Development	6.2
Ministry of Health, Wellness and Social Services	81.9
Ministry of Environment, Rural Modernisation and Kalinago Upliftment	11.2
Tourism	20.6
Ministry of Culture, Youth, Sports and Community Development	12.8
Establishment, Personnel and Training Department	9.9
Ministry of Public Works, Public Utilities and the Digital Economy	55.0
Ministry of Foreign Affairs, International Business, Trade and Energy	22.8
Cabinet Office	3.5
Ministry of Labour, Public Service Reform, Social Partnership, Entrepreneurship and Small Business Development	2.2
GRAND TOTAL	679.4

The five highest recurrent expenditure allocations are as follows:

1. The Ministry of Finance, Economic Development, Climate Resilience, and Social Security is to receive \$296.3 million or 43.6 percent of the total recurrent expenditure. Of this sum, \$126.8 million is allocated to debt services payments, \$46.1 million is earmarked for retiring benefits including gratuities, pensions, compassionate allowances and non-contributory pensions (the over-65 programme), while \$7.4 million has been set aside for the payment of insurance premiums to the Caribbean Catastrophe Risk Insurance Facility to ensure adequate coverage against excess rainfall, earthquakes and tropical cyclones.
2. The Ministry of Health, Wellness and Social Services receives the second largest allocation of \$81.9 million or 12.1 percent of total recurrent expenditure. This government remains dedicated to promoting a healthy Dominica and will continue to invest in the health sector.
3. The third highest amount of \$70.7 million or 10.4 percent is allocated to the Ministry of Education, Human Resource Planning, Vocational Training and National Excellence.
4. An amount of \$60.6 million or 8.9 percent of the total is allocated to the Ministry of National Security and Home Affairs; and
5. The Ministry of Public Works will receive \$55.0 million or 8.1 percent.

The allocation for goods and services accounted for 35 percent or \$234.9 million, of total recurrent expenditure. The total budgeted for personal emoluments is \$167.1 million, or 25 percent. This amount takes into account increases in some of the allowances paid to public officers. The amount set aside for retirement benefits, transfers, and subsidies is \$144.6 million. That amount includes public assistance, grants, and payments to local, regional, and international entities.

Interest payments are expected at \$54.1 million, while debt amortization and contributions to the sinking fund are estimated at \$73.2 million.

Capital Expenditure

Mr. Speaker, in respect of the Capital Estimates for the Fiscal Year 2024/2025, I propose a total capital expenditure of \$934.9 million. Table 2 provides a breakdown of capital expenditure by Ministry/Department.

Table 2: Capital Expenditure by Ministry/ Department

MINISTRY/DEPARTMENT	Total in (million)
Office of the President	0.7
Legislature	0.1
Ministry of National Security and Legal Affairs	4.3
Elections	0.8
Office of the Prime Minister	490.0
Ministry of Finance, Economic Development, Climate Resilience and Social Security	10.0
Ministry of Agriculture, Fisheries, Blue and Green Economy	52.5
Ministry of Education, Human Resource Planning, Vocational Training and National Excellence	22.8
Ministry of Housing and Urban Development	70.5
Ministry of Health, Wellness and Social Services	7.5
Ministry of Environment, Rural Modernisation and Kalinago Upliftment	41.2
Ministry of Tourism	17.2
Ministry of Culture, Youth, Sports and Community Development	11.8
Establishment, Personnel and Training Department	1.7
Ministry of Public Works, Public Utilities and the Digital Economy	164.8
Ministry of Foreign Affairs, International Business, Trade and Energy	32.8
Ministry of Labour, Public Service Reform, Social Partnership, Entrepreneurship and Small Business Development	6.5
GRAND TOTAL	934.9

FOSTERING LONG TERM SUSTAINABLE ECONOMIC GROWTH

Key Infrastructure to Enable Sustainable Growth and Expansion of the Economy

Mr. Speaker, this Government has made substantial investments in infrastructure, a fact often taken for granted as we in Dominica have come to expect and demand nothing less. Our achievements are evident with the improvement in the quality of our road network, including community roads; sea defense walls, bridges, contemporary school structures, modern health and wellness centres, new hospitals, police stations, sports facilities, housing developments; and the extension of the runway and night landing capabilities at Douglas-Charles airport. These developments, and many others, have been achieved notwithstanding repeated macroeconomic shocks and disasters; and have laid the foundation for the improved quality of life and economic growth that we currently enjoy.

This Government’s stated intent to build a resilient, Dynamic Dominica, necessitates that we continue to be visionary in our approach. We continue to pursue initiatives designed to grow our economy and foster the economic well-being of our people. Several of the initiatives that we are pursuing are interlinked and will create numerous opportunities direct and indirect for our people.

Some of the obstacles to our development that are not external or climatic, have been linked for example to our limited air access, a small population, high cost of energy, and inefficient systems. We have sought systematically to address these matters.

We have several major transformative projects in the pipeline that are at various stages of development that will help improve our tourism product and significantly increase visitor arrivals, create markets for our agricultural produce, create opportunities in the renewable energy sector, reduce the cost of doing business, and create efficiencies through digitalisation.

These include the construction of an international airport, a marina, a new cargo port and a modern cruise village. We are rehabilitating our road network, enhancing the city of Roseau, providing cheaper, reliable renewable energy, and digitalizing Government processes and services.

Mr. Speaker, our flagship project is the **international airport**. This top priority project is progressing at a steady pace, and I am pleased to report that construction is ahead of schedule.

Three (3) of the four main box culvert crossings are now complete and over 6 million of the 24 million cubic meters of earthworks for the airstrip and landside buildings have been completed. By the end of this fiscal year, we expect to complete 80 percent of the earthworks and commence construction of the terminal and other ancillary buildings.

The new international airport is being built with a capacity to handle up to 500 000 passengers per year. I want us to think for a moment of what that could mean for Dominica. This will lead to increased visitor arrivals, higher hotel occupancy rates, and more business for all those who are involved in the tourism sector.

When this International Airport becomes operational, it shall become a hub for economic activity, generating jobs and stimulating local businesses and attracting investments. The International Airport will allow local businesses, including farmers, manufacturers and small businesses, with access to the global market.

There will also be significant positive spillover effects due to the greater demand for goods and services, benefiting our people and businesses as more money circulates in the economy.

Let us all recognize and support the pivotal role that the International Airport will play in shaping a brighter and more progressive and prosperous future for our country.

Government therefore continues to encourage every Dominican to prepare for the opportunities that will arise from this transformative project.

Mr. Speaker, another milestone infrastructure project, the **Cabrits Marina**, is about to commence. The Government has partnered with Range Developments, developers of the Intercontinental Dominica Cabrits Resort, for this project. The construction of the Marina Basin is estimated to take 12–18 months with dredging of the site to commence in August 2024.

Upon completion, the marina will offer a range of services to operators of catamarans, yachts including super yachts, and sport-fishers. This includes fuel supplies, vessel security for crew and guests, transportation services, food and beverage services and berthing slips.

The modern designs and amenities are expected to triple the number of yacht calls to Dominica, considering our central location in the Eastern Caribbean. The Cabrits Marina will entice yachties to make Dominica their home base due to our people’s warm and welcoming disposition, our low crime rate and the ease of air travel to and from their country of residence that the new airport will bring.

This will result in a sharp, sustained increase in stay-over arrivals and hundreds of permanent jobs for Dominicans. The marina will generate revenue and foreign exchange for the country and additional income for the Dominicans who are already engaged in the yachting industry, both directly and indirectly.

The Marina will serve as a catalyst for economic growth and will stimulate the local economy and create new business opportunities and jobs for our people.

The government is also in the process of securing financing for the construction of the **new smart cargo port at Donkey Beach in Canefield**. With ongoing and planned investments and the anticipated sustainable growth in the economy, we need a cargo port capable of responding to increased trade. This new facility will be built to resilient standards to withstand climate effects and other environmental conditions that could negatively impact port operations and will be equipped with smart technology to improve efficiency and reduce clearance times.

A private developer is also undertaking preparatory works for the development of a new cruise village at the Woodbridge Bay Port. This village will cater for cruise ships, ferry services and duty-free shopping.

We envision that this duty-free shopping zone will be another source to draw foreign exchange and investment to our country, fostering a business-friendly environment for both large and small retailers. It will also create an avenue for our local entrepreneurs to access a wider, diverse international clientele to sell their quality products. The influx of tourists and locals seeking tax-free bargains will result in higher sales volumes and an overall boost for the economy. Our people can look forward to a range of job opportunities and prospects for business during the construction and operation of the Cruise Village.

Mr. Speaker, the four transformative projects that I have described, among others, will result in a surge of visitors, boosting trade and economic activity, and equally important, create more sustainable jobs for our people.

Mr. Speaker, roads serve as crucial arteries that connect people, places, and opportunities and their role in fostering economic growth, social integration, and overall development cannot be overstated. In any country, a well-developed road network reduces transportation costs, increases market accessibility, and boosts productivity.

We take pride in our efforts over the past years to develop a high-quality road network throughout the island. Our latest ongoing major project is the East Coast Road Rehabilitation—from Bois Diable to Hatton Garden via the Kalinago Territory. This Road is now 75 percent complete and has already spurred increased economic activity in that region. Access to essential services, work, and schools has improved; safety for road users is enhanced; and the value of the land has increased, representing opportunity and higher incomes for property owners in the area.

We thank the residents of Castle Bruce, Dixpas, Tranto, Morpo, Petite Soufriere, San Sauveur, Good Hope, Atkinson, and the Kalinago Territory for their patience and understanding during construction. I am sure that now the project is nearing completion they can appreciate and enjoy the comfort of a more robust and efficient road network.

Mr. Speaker we will commence two new road projects this year. I am pleased to inform the Honourable House that two local contractors have jointly won the tender for the rehabilitation of the **Loubiere to Grand Bay Road**. A contract will be awarded within the next two weeks and work will start by October this year. It is anticipated that this Project will enhance the resilience of this road and the safety of road users and attract more economic activity to that area.

Mr. Speaker, this Labour Party Government will transform the City of Roseau into a more dynamic commercial and residential hub. Last November, Parliament approved a loan of US\$41.0 million (EC\$110.7 million) for the continuation of the Roseau Enhancement Project. The planned improvements will beautify the city, alleviate traffic congestion, boost commercial activities, and enhance the comfort of residents, businesses, and visitors.

The designs to rehabilitate six streets, namely: River Street, Great George Street, King George V Street, Cork Street, Bath Road, and Independence Street, with new sidewalks and drainage systems, are complete.

We recognize the importance of this much-anticipated project in improving the quality of life of those who live and work in the city and assure our citizens that the Government is committed to its implementation and will minimize disruption as much as possible.

Mr. Speaker, water is critically important to everything that we do. It is crucial for maintaining health and wellbeing, and supporting livelihoods. The Government of Dominica therefore continues to collaborate closely with DOWASCO to strengthen the resilience and reliability of the island’s water systems.

Delivering water to homes and businesses, especially given Dominica’s challenging terrain, is a costly exercise. Despite the significant investments required to establish and restore access, particularly post Maria, we have consistently shown our dedication to ensuring that every community in Dominica has access to potable water.

Last Fiscal Year we continued upgrades to Water Area-1—the largest water system, serving communities from Mero to Castle Comfort, which is approximately 45 percent of the population, along with businesses in our main commercial district—the city of Roseau. This project, which began in 2014 has so far cost \$33 million, with \$24 million financed through loans, while the Government of Dominica and DOWASCO contributed \$9.0 million.

A \$6.5 million pipeline replacement project was also completed to facilitate the development of the new East Coast Road.

In the current fiscal year, DOWASCO will commence the implementation of its Water Sector Strategic Development Plan (WSSDP) which aims to enhance resilience in four (4) major water systems, namely: Castle Bruce; Morne Jaune, Riviere Cyrique, and Grand Fond; Calibishie; and Coulibistrie, Salisbury and Grand Savanne systems. These upgrades are expected to cost \$36 million, with work scheduled to commence in October 2024 and projected for completion by March 2026. The project will be funded primarily by a grant from the Government of the United Kingdom.

Other major water projects to be implemented this year include:

1. Paix Bouche Water Enhancement Project funded by the Caribbean Development Bank, the Government of Dominica and DOWASCO to the tune of \$2.0 million; and
2. Upgrades to the Penville Water System and the Bense Water System at a cost of \$3.4 million, to be funded by the Government and DOWASCO.

Mr. Speaker, an important component of our growth strategy is the development of our **renewable energy sector**. We believe economic development will be driven by a reliable, clean, stable and reasonably priced energy supply which will lower the cost of doing business and attract new green energy investment.

The Government of Dominica has made a strategic decision to invest in developing its geothermal potential, to produce clean energy at a reduced cost.

On December 5, 2023, Dominica achieved a significant milestone by entering into an agreement with Ormat Technologies for the financing, construction and operation of the Geothermal Power Plant. On July 10, 2024, the first batch of power plant equipment was delivered to the site at Laudat, initial civil works commenced on July 11 and commissioning is scheduled for the end of December 2025.

To facilitate the transition to renewable energy and reduce line losses, Dominica needs to upgrade its electricity transmission network. In June 2024, the Government of Dominica secured an EC\$104 million loan from the World Bank to fund the new transmission system from Laudat to Fond Cole.

These initiatives will significantly improve efficiency and ensure reliable electricity service for our citizens. Our journey to energy independence has been lengthy and expensive but we are on the right track and close to completing this major project. We are also exploring the geothermal potential in the North of the country as a means of spurring industrial development on a large scale and we will provide more information on that in the coming months.

Mr. Speaker, this Government has clearly outlined its plans for **Digital Transformation** in Dominica. We recognize that a key component of resilience and sustainable development is leveraging technology to enhance access and improve service delivery in both the public and private sectors. Over the past few years, we have witnessed a significant shift in how business is conducted within Dominica and internationally, driven by the introduction of new digital technologies.

To capitalize on these opportunities, the Government continues to build our citizens' capacities to operate in a digitalized environment. This year, we have provided training for micro, small, and medium business owners and managers to sell products online, manage online content, and effectively use social media.

We believe digital solutions can help businesses scale up their operations, reduce costs, and improve customer interaction. This week, the Government awarded grants to seventy-seven (77) small businesses in various sectors, including IT, music, retail, services, agro-processing, and food and beverage, to support the digitalization of their operations.

Digital Transformation is about innovation, efficiency, and enhanced customer experiences. In this spirit, the Government is pleased to announce the launch of the Government of Dominica e-Services Portal, accessible at eservices.gov.dm. This web and mobile portal allow the public to submit applications, make payments, and access information on over ninety (90) services. The portal is available 24 hours seven days a week, enabling users to apply and pay for birth, marriage, and death certificates, marriage licenses, permits and other services from anywhere in the world. This streamlined approach to conducting business will result in savings, convenience and more efficient time management for our citizens.

Other initiatives to be undertaken during this Fiscal Year include the implementation of an e-Office and Document Management System and a Digital Signature Framework for the Public Service. A contract for the design and installation of these two systems has already been awarded. These systems will improve administrative efficiencies, lead to significant cost savings, and contribute to environmental sustainability.

In addition, we are in the process of identifying a vendor to provide a digital system that will allow the Government to make payments, particularly for social assistance, via cards instead of cash, eliminating the need for bulk cash processing. Under this system, recipients will receive cards, and payments will be directly loaded onto them, offering a more secure and convenient means of payment.

While the Government focuses on digital transformation within the Public Sector, we call on the private sector to partner with us to build the digital economy. We encourage businesses to adopt digital payment methods, including mobile banking, credit and debit card payments, and online payments. Utilizing digital marketing, e-commerce platforms, and mobile applications to interact with customers can expand reach and increase revenue.

To support these initiatives, the government is establishing a formal legislative framework to facilitate the digital economy and is taking measures to enhance cybersecurity for user protection.

Development and Expansion of our Industries

Mr. Speaker, for Dominica to realise the sustainable development goals and the resilience targets envisioned by this Government, we must continue to expand existing productive sectors and diversify our economy by introducing and facilitating new industries. Dominica is endowed with numerous natural resources that we must add value to and market to Dominicans and globally for financial returns.

One of the main contributors to Dominica’s development and growth is **Tourism**. During the Fiscal Year 2023/2024 visitor arrivals increased by more than 4 percent compared to the previous year, despite global challenges and airlift issues.

In the past twelve months, Dominica has received numerous accolades, including being named one of Reader’s Digest’s 20 Best Honeymoon Destinations, Travel + Leisure’s 50 Best Places to Travel for three consecutive years, BBC’s 10 Sustainable Travel Destinations to Visit in 2024, and the New York Times’ 52 Greatest Places to Travel in 2024. This month, Dominica also ranked number 5 on Travel + Leisure’s list of the 25 Best Islands to Visit Around the World. Dominica is the only Caribbean Island in the top 5.

These recognitions, along with those I reported last year, highlight the success of your government’s significant investments in the tourism sector, which are helping to solidify Dominica’s status as a leading sustainable tourism destination in the world.

We continue to improve and expand on our product offerings and during this Fiscal Year, Government will rehabilitate segments 4, 11, and 13 of the Waitukubuli National Trail and begin the construction of a \$1.5 million Tourism Reception facility at Champagne in Pointe Michel. This modern centre will feature vending units, changing rooms, lockers, spa services, restaurants, bars, and open green spaces for recreation, all in an effort to enhance visitor experience.

Mr. Speaker we are planning to upgrade all of our tourism sites on a phased basis and this Year we will finalize designs to transform three other major tourism sites—the Trafalgar Falls, Emerald Pool and Titou Gorge. The designs will focus on making the sites more accessible and user friendly while maintaining the characteristics of their natural environment.

Mr. Speaker, I am pleased to report that the **Cable Car** project in the Roseau Valley is progressing satisfactorily. This is an important project that is part of the overall vision to increase the variety of activities available to be experienced in the Nature Isle and in keeping with our goal to make our sites accessible to all, regardless of age or physical ability.

By the end of 2025 the world’s longest Cable Car will be ready to transport visitors over the breath taking and scenic tourist sites in the Roseau Valley. More than 200 people are employed on this project, many from the Roseau Valley and at least 100 people will be permanently employed when it is commissioned.

Mr. Speaker, the Cable Car’s operation will enhance the tourist experience in Dominica and generate increased revenue, particularly for the people in the Roseau Valley.

While we await the completion of the International Airport we continue our efforts at improving and increasing airlift to the island. The extension of the Douglas Charles Airport runway is almost complete and will improve connectivity and access to key markets.

It is a matter of some satisfaction to us that this extension is necessary to respond to the heightened demand for airlift into Dominica as Dominica has become one of the most popular destinations in the Caribbean. Extending the runway will allow larger aircraft to land, attracting more stay over tourists and business travellers to the island, which will boost tourism revenue. We are constantly in discussions with other airlines to secure more flights from key markets.

To this end, Sunrise Airways made its inaugural landing in May 2024, while WINAIR has launched flights between Dominica and Martinique, and American Airlines has added daily flights between Dominica and Miami during peak seasons. With the extension and grooving of the Douglas- Charles runway we are looking forward to successful completion of negotiations for a new direct flight from the United States starting this Fiscal Year.

Mr. Speaker, to complement the major investments that we are making in attracting more visitors to our shores, we are also addressing the increased demand for accommodation that will arise. We expect that within the next two years, five new internationally branded hotels, constructed under Citizenship by Investment Program, will be completed.

The combination of all of these investments will help us achieve our goal of attracting 500,000 stay-over visitors and 1 million cruise visitors by 2030.

Mr. Speaker, it should be noted that these goals cannot be achieved solely with investment by Public Sector. “Tourism is Everybody’s Business” is a familiar theme, which means that every citizen must play a role in the success of the tourism sector.

However, this task requires residents to play their part. Owners of derelict vehicles, garages, shops, stalls, businesses, and homes along our streets, community roads, and highways must adopt their surroundings to ensure they are kept clean and green.

Mr. Speaker, each of us has a duty and responsibility as a citizen or resident of Dominica to protect our environment. We need to engage in better waste management practices. We need to engage in beautification and cleanliness activities in order to preserve the environment of this Nature Island.

Even those of us who think we have nothing to gain from tourism, may not realise that when the taxi and tour operators make money they can buy more from our shops. If we have more visitors, our hotels, restaurants and bars will have more customers and the government gets more revenue to improve on and provide more services.

In order to cement ourselves as a premier tourism destination we must ensure quality customer service throughout Dominica as well as keep our surroundings clean and beautiful at all times.

We must not only rely on the wonderful work of the NEP in cleaning and beautifying our communities, but we should take personal responsibility to ensure that we too play our part by planting flowers and trees and disposing of our garbage responsibly.

Mr. Speaker, another sector which is expected to receive significant benefits from Government’s ongoing investments in **agriculture**. That is why this Government is continuing its efforts to boost **agriculture’s** contribution to GDP to \$700 million by 2030. We believe there is significant potential for growth in this sector, driven by the increasing global demand for food security.

We will continue to implement our plans as articulated in the two previous budget addresses, focusing on increasing agricultural production, enhancing agro-processing output, improving Dominica’s brand, and expanding our market share locally, regionally, and internationally.

We are investing strategically in developing robust crop production systems, including expanding the stock of high-quality planting materials to achieve consistently higher yields and quality. Over the past year, we distributed more than 390,000 plantlets and seedlings with the assistance of the Chinese Agricultural Technical Mission and in the next twelve months, the Government plans to provide at least 140,000 banana and tree crop planting materials to farmers.

The recently commissioned \$11.4 million Dominica-China Agricultural Science Complex Building, gifted by the People’s Republic of China, features a tissue culture lab capable of producing 500,000 seedlings annually. This lab will utilize cutting-edge technology to develop disease-free planting materials and includes a seed cold storage room for establishing a national seed bank as part of our food security and post-disaster resilience plans. The Government and People of Dominica express our profound appreciation to the Government and People of China for this very timely gift.

Additionally, we are rehabilitating plant propagation facilities and introducing new crop varieties at the Chinese Agricultural Technical Mission at One Mile to diversify and increase output; and also, a citrus certification centre, with a capacity to propagate 50,000 citrus plants annually, will be constructed at Londonderry this year.

To further support crop production, new irrigation and water storage systems are being commissioned at various locations. Ongoing projects include the installation of a new system at Salisbury which will benefit over 60 farmers.

Mr. Speaker, as you are aware Government established a Revolving Fund to assist DEXIA to meet its commitments to farmers and provide a credit Fund to hucksters to facilitate increased production and exports. This Fund has restored farmers’ confidence in the agricultural sector through a guaranteed market for their produce. During the period June 2023 to June 2024 \$1,656,752.40 was drawn down from the Fund. This facility has enabled DEXIA to purchase and pay farmers within a 48-hour window after purchase.

Significantly, bay oil valued at about \$300,000 was purchased, restoring faith among producers and reinforcing the Government’s commitment as a facilitator connecting producers to the market. DEXIA has also upheld the Government’s commitment to support import substitution by assuring white potato farmers a confirmed, hassle-free market for their produce.

We have secured markets for a variety of crops, in particular, plantains, dasheen and passionfruit. This year DEXIA will begin entering into contracts for the consistent supply of these produce.

Government has engaged a consultant, whose main responsibility is to find market for Dominica’s produce. Therefore, it is envisaged that by the end of the Fiscal Year, additional opportunities will be secured.

In livestock production, our immediate goals are to reduce Dominica’s poultry and meat imports by 30-40 percent, increase exports of fresh animal products, and achieve protein security by 2030.

Mr. Speaker, in the past year, we expended \$5 million to subsidize materials and labour for 170 beneficiaries to construct livestock structures. Ninety-three (93) of these structures have been completed. We also completed the rehabilitation of the Central Livestock Farm.

Over the next two years, the Government will implement the Sheep and Goat Development Programme with investments in artificial insemination, embryo transfer, silvopasture, pelletizing feeds, pasture improvement, and fencing.

We will also expand broiler production with key investments such as the reconstruction of the abattoir at a cost of \$6.5 million, construction of an animal feed mill, and development of local hatcheries. These investments are expected to increase livestock production thereby decreasing our import of meat.

Additionally, this Government recognizes the importance of the apiculture industry. In this regard, 15 farmers will receive 100 hives to increase the production of honey by 100 percent. This will ensure a more reliable supply of honey for consumption as well as for the manufacturing of by-products of honey.

Mr. Speaker, the Government of Dominica committed last year to allocate funds annually for the rehabilitation of feeder roads, and we are honoring that promise.

In the past year, we repaired the Macaton, Mopo and Chatwell roads. This Fiscal Year, two allocations under the Ministry of Public Works Capital Budget will address the most challenging sections of farm roads serving the highest number of productive farmers, such as, the Carholme Road; Petit Macoucherie in Salisbury; Station Road in Laplaine; Dal’fondsie in Grand Coulibrie; Neba/Atlee Road in Layou Park; and Captain Bruce Feeder Road in Marigot.

We continue to work to address the concerns of the farmers in relation to farm labour. At present, a Farm Labour strategy is being finalized. It will include a migrant component, similar to the programme implemented by the Government of Canada; as well as an entrepreneurship component and a mechanization component which will include skills training.

Mr. Speaker, permit me at this juncture to update the Honourable House on the progress we have made in the development of the **Blue Economy**. We are attracting investments from both the public and private sectors to realize increased benefits and diversify the economy.

In fishing, we are improving infrastructure and providing training, vessels and equipment to fisher folks. \$3.2 million has already been spent on the training of boatbuilders, construction of molds and prototypes as well as procurement of materials for the construction of 50 boats. During this fiscal year contracts will be awarded to boatbuilders for the construction of at least 30 of these boats.

Furthermore, we will enhance the fish landing sites at Bioche, Dublanc, Mahaut, Scotts Head, Stowe, and San Sauveur, while the fish vending areas at Fond Cole and Newtown will be upgraded.

Mr. Speaker, we have traditionally focused on the fisheries and tourism aspects of the Blue Economy, but since 2022, this government has outlined a clear path to capitalize on the new opportunities within the sector.

One key initiative is the establishment of the world’s first Sperm Whale Reserve. To this end, we are ensuring all prerequisites are in place. We have determined the exact location for the Reserve, covering an area of 923.3 km²—approximately 12 nautical miles off the West coast of Dominica in the Caribbean Sea, representing 3.2 percent of Dominica’s Exclusive Economic Zone. This location was selected based on an analysis of critical areas for the whales with minimal impact on shipping and trade.

We have completed stakeholder consultations on the draft legislation and are incorporating their feedback. This legislation provides for the creation of a Sperm Whale office, a new licensing regime, and a detailed Sperm Whale Management Plan. We expect to present the final draft legislation to the House by October 2024, and to establish the Reserve by November 1, 2024, in time for the 2024/2025 Tourist Season starting in October 2024.

Additionally, preparations are underway to establish the Global Regenerative Climate Research Institute (GRCRI) at the Dominica State College. This marine institute, in collaboration with Common Earth, UK, will focus on research and development in aquaculture, mariculture, blue technologies, coral and marine life research and restoration, and scientific research.

Mr. Speaker, another major initiative within the blue economy is the development and commercialization of seamoss. Although seamoss is a vital component of the blue economy, its full potential remains untapped in Dominica. There is potential to produce seamoss on a large scale for both local consumption and export.

Therefore, the Government has begun increasing investments to boost seamoss production. Last fiscal year we provided equipment, training and planting material to seamoss farmers. This year, we plan to further increase seamoss production by identifying new production sites and producers.

We are currently supporting the establishment of an ex-situ coral nursery in Soufriere in collaboration with the Nature Isle Dive Watersports Operation and Oceans Forward. This coral restoration initiative is an adaptive measure to mitigate some coastal impacts.

This is a timely intervention given the impacts of climate change on coastal resources. Rising sea temperatures, sedimentation, coral bleaching, coral diseases, and invasive species threaten not only the livelihoods of coastal communities but also the ecosystems that sustain them.

Mr. Speaker, we are encouraged by the quantity and quality of Dominican products in the market. Visit any supermarket in the city and you will see the wide array of local products on the shelves. We commend our agroprocessors for their innovative spirit and will continue to assist them to expand and grow their enterprises.

Mr. Speaker, in addition to agriculture production, to achieve the \$700 million agriculture contribution to GDP by 2030, Dominica must enhance **its agro-processing and value-added capabilities**. There is potential for more local produce to be processed and packaged or used as raw materials for the manufacturing of new products for local and export markets.

The Government has been working with agro processors to increase production. We have provided grants, equipment, loans through the AID Bank and duty-free concessions to help reduce the cost of production and increase their efficiency and competitiveness. More support will be provided to agro-processors in this Fiscal Year.

In addition to this support, we are responding to the request for space for agro-processors to operate. To this end, Government, with the assistance of the Caribbean Development Bank, is finalizing the Terms of Reference for the design of a production facility for agro processors. In the interim, an amount of \$1.0 million has been allocated in this Year's budget to support rental of hubs in at least two locations to provide additional space for small agro-processors to increase their production.

Mr. Speaker, our investments in agriculture and agro processing will not reap the anticipated benefits without public input. We are calling on all Dominicans to “EAT WHAT WE GROW.” Let us make informed choices about the food we consume and prioritize purchasing local products. Consuming local produce and locally manufactured products increases demand within the agricultural sector, resulting in greater benefits for our farmers and the economy.

We also encourage farmers to adopt sustainable farming methods, best practices for food safety, and ensure reliability and consistency of supply to markets. We are creating an enabling environment and supportive framework for the advancement of the agricultural sector but will need the participation of all stakeholders to meet our goals for food and nutrition security.

Mr. Speaker, Government continues to support micro, small, and medium enterprises (MSMEs) through strategic partnerships and innovative programs. We aim to create a conducive environment for entrepreneurs to thrive, build wealth, and drive economic prosperity.

In addition to the training, technical advice, marketing support we have provided access to financing through two critical facilities—loans from the AID Bank as well as guarantees for loans taken under the Eastern Caribbean Partial Guarantee Programme which is offered locally by the National Bank of Dominica.

Furthermore, last year we introduced a fiscal incentives licensing programme similar to that which exists for large businesses. Under this Programme, MSMEs are able to benefit from duty-free concessions for importing equipment, raw materials, and supplies. Interested MSMEs may apply through the Small Business Unit.

Establishment of A Medicinal Cannabis Industry

Mr. Speaker, the Government of Dominica is committed to the development of comprehensive legislation that allows for safe access to cannabis products for medicinal and therapeutic use while creating economic opportunities for growers and processors of the cannabis plant.

In 2022, the Government demonstrated its commitment to formalizing this sector by appointing a National Task Force to review existing legislation and develop a regulatory framework for the controlled distribution of cannabis and its various by-products.

A consultant legal draftsman has been engaged to draft the legislation required to provide the solid legal foundation and framework necessary to enable Dominica to fully capitalize on and benefit from the economic potential of the growing medicinal cannabis industry.

Mr. Speaker, upon the submission and passage of this legislation through Parliament, we will proceed with the development of a facility for the regulated cultivation and processing of cannabis by-products for export including oils, beauty and skin care products. This initiative aims to create a sustainable industry with significant potential for generating revenue, creating jobs, and attracting investment opportunities.

Also in this Fiscal Year, we will establish a Cannabis Authority and appoint a Board of Directors to oversee and manage the Cannabis Industry. To assist and to guide us through the launching of this new industry, we will engage Dr. Machel Emanuel, a Dominican born expert on Cannabis, as our consultant adviser. Dr Emanuel has provided similar advice to several other countries.

SOCIAL PROTECTION AND PEOPLE DEVELOPMENT

Mr. Speaker, I want to reassure the socially vulnerable people of Dominica that we have allocated funds to sustain all of the Government’s social programs. These include the Public Assistance Programme, the Foster Care Programme, support for juveniles in conflict with the law, the Centenarian Programme, the Non-Contributory Pension for those 65 and older, the Yes We Care Programme, textbook scheme, uniform allowance, school transfer grants and the school feeding programme.

Our extensive portfolio of social assistance programs is unparalleled in the history of Dominica. As a compassionate, people-centered administration, we will continue to assist the socially vulnerable. This is a duty we uphold, a commitment that aligns with our values, and we will not abandon our responsibility to protect the vulnerable.

During the last Fiscal Year, we handed over 249 homes. This year, Mr. Speaker, we will be handing over an additional 361 homes to citizens in communities across the island.

This is to ensure that our citizens have decent homes and can feel secure during severe weather. This is in line with our policy of social protection and people-centered development to enhance the quality of life and standard of living of every Dominican.

Notwithstanding our progress in increasing Dominica’s resilient housing stock for the vulnerable, the demand for homeownership nationally remains high. In the last fiscal year, the Government sold 50 residential lots at various locations. In this financial year government will make available for sale 163 lots at concessionary rates at Jimmit,

Hillsborough Gardens, Cotton Hill, Union Estate, Canefield East and Cabana View, formerly known as Jumbie Piece near Wesley.

We also await Physical Planning Division’s approval for the Future Housing Development at Warner. The banks and the credit unions have agreed to give special consideration offering favorable mortgage rates and conditions.

This project underscores our dedication to creating sustainable housing solutions for young professionals, public officers, and Dominicans living abroad.

I encourage our citizens, especially the youth, to actively participate in this ongoing housing revolution by investing in land and homeownership. Do not shy away from taking a mortgage to build a home, which can also offer the opportunity for a second income through rental. This approach will help create generational wealth and contribute to the growth and stability of our communities.

Mr. Speaker, we will all agree that housing is more than just four walls and a roof; it is the cornerstone of stability, security, and a catalyst for growth and prosperity. Safe and reliable housing provides a solid foundation for individuals and families to build better lives and contribute meaningfully to society.

With this in mind, the Government has been focusing on the relocation of communities impacted by disaster to ensure the safety and security of residents. Of the housing units to be constructed this fiscal year, thirty-five will be built in the first phase of a new development site in Castle Bruce to relocate the communities of Petite Soufriere, San Sauveur, and Good Hope to a safer location. This Project will commence in the last quarter 2024. In addition, designs have been submitted to the Physical Planning Division for the relocation of Campbell residents.

Our investment in housing development has stimulated economic growth, creating jobs for architects, engineers, contractors, construction workers, and suppliers while driving demand for materials, services, and goods.

By prioritizing housing as a crucial part of our social and economic strategy, we are fostering stronger, healthier, and more equitable communities.

Mr. Speaker, Dominica’s **education sector** remains a top priority for this Government. We are building a modern education system that meets the demands of 21st-century students, empowering young people to be active and successful participants in an increasingly competitive global environment.

To this end, we are providing our children with every opportunity to excel in the classroom. A crucial aspect of effective learning is the provision of clean, modern, child-friendly spaces for students to reach their full potential.

This Fiscal Year, we commenced the highly anticipated construction of six schools funded by the Government of the People’s Republic of China. Construction of the Goodwill Secondary School is progressing rapidly, with the first and second floors of the classroom block nearing completion. The foundations of the technical block and canteen are complete and excavation work on the administrative block will begin this week.

This Secondary School will be established as a Center of Excellence for Technical Vocational Education and Training, aiming to create a cadre of skilled and empowered youth capable of contributing to economic development.

The Center of Excellence will include facilities for training delivered by skilled professionals in auto mechanics, woodwork, garment production, air condition and refrigeration installation and repair, electricity and electronics and home management, among others. We also hope to foster partnerships with businesses and organizations to facilitate on-the-job learning experiences.

Foundation work is at an advanced stage at the Thibaud and Bellevue Chopin Primary Schools, while preliminary works are ongoing at Calibishie, Sineku, and Tete Morne.

As previously announced, the Thibaud Primary School will serve as a center for students with special needs, ensuring they receive dedicated instruction in a supportive and effective environment, enabling students to reach their full potential. This special needs centre will provide individualized attention and specialized curriculum and resources.

The Government is committed to reforming the education system to better prepare students with the diverse skills needed to leverage new opportunities and thrive in a changing global environment.

Efforts to enhance Early Childhood Development continue with funding from the OECS Pearl Project. Upgrades have been completed at the Kelleb Laurent and Salybia Primary Schools. These Early Childhood Development rooms now include washrooms, office space for teachers, and new furniture. The refurbishment has thus far cost \$220,000. Ongoing works at the Bagetelle Primary will soon be followed by upgrades at Castle Bruce and Jones Beaupierre Primary. A new Early Childhood Centre at the Baroness Patricia Scotland Primary School, funded by the Maria Holder Foundation, is complete.

Mr. Speaker, to provide increased access to quality education, we are constructing a new, modern and conducive Dominica Grammar School—the largest Secondary school in the Roseau Catchment Area with a proud legacy of accomplished graduates who have made significant contributions to the development of our country.

The state-of-the-art Dominica Grammar School will be completed this year and will comprise new classroom blocks, an auditorium, and an administrative block as well as refurbishment of the existing Classroom blocks A and B.

Last fiscal year, renovation work on the Block C Classrooms at the Dominica State College was completed. Renovation work, at a cost of \$2.7 million, is ongoing on classrooms, offices, and hallways of Blocks A and B, with completion expected in time for the reopening of the new semester. This is part of the government’s commitment for the comprehensive rehabilitation of the Dominica State College including the revamping of the Agriculture and Auto mechanic programmes, establishment of a hospitality institute, and improvement in accommodation for both teachers and staff to ensure we have a more conducive environment for learning and success.

Mr. Speaker, I wish to emphasize to support the Government’s investment in education, we must also emphasize the shared responsibility of teachers, parents, and students in the success of the education system.

Mr. Speaker, it would be remiss of us to discuss **sports** in the parliament today without acknowledging the outstanding performances of our national heroes, Kavem Hodge and Alick Athanaze, in the ongoing test series against England.

Kavem Hodge has demonstrated tenacity, discipline and impressive skill; and his accomplishments, alongside his friend and teammate, Alick Athanaze, have brought immense pride and joy to the people of Dominica and the Caribbean.

We extend our heartfelt congratulations to both of them and are confident that the sky is the limit for these two Dominican cricketing superstars. Their continued success is not only a source of national pride but also a beacon of inspiration for aspiring athletes, proving that Dominica can indeed produce top-level sports professionals.

Earlier this year, we also witnessed the impressive performance of young Stephan Pascal, who captained the West Indies Under-19 team during the International Cricket Council Youth Cup in South Africa.

Addison James secured bronze in the Under-20 Boy’s category at the CARIFTA Games. Dominica also won the Boys and Girls Basketball and Boys’ Volleyball at the Windward Islands Schools Games, contributing to our overall second-place finish. Additionally, Dominica placed third in the Regional Under-16 Netball Tournament, and Dennick Luke won a bronze medal in the Under-23 800m race at the North American, Central American, and Caribbean Athletics Association Championship in July 2023.

Dominica shone again on the international stage earlier this year when triple jumper Thea Lafond won our first Gold Medal at the World Indoor Athletics Championship in Glasgow, Scotland.

There is every indication Mr. Speaker, that Thea Lafond is on course to medal at the Paris Olympics and we send her best wishes from the Government and people of Dominica for success at these all-important games.

We extend our congratulations to these young achievers and the many others who have excelled in the past year.

As a demonstration of our commitment to advancing sports in Dominica and helping more of our youth achieve similar sporting glory, the Government has established the National Sports Council and appointed former elite international cricket umpire Billy Doctrove as Chair. This Council will be tasked with improving sports management, reviewing current sports legislation, and finalizing a comprehensive national sports policy.

We are also continuing to make significant investments in sports infrastructure across our island, including a project to install lighting systems on eight playing fields. So far, lights have been installed at Mahaut, Vieille Case, Grand Fond, Bellevue Chopin, and Anse De Mai—while work continues on the Glanvillia, Center-Grand Bay, and Soufriere playing fields.

The government is upgrading the Wotten Waven, Woodford Hill, playing fields and constructing new outdoor hard courts in Penville, Portsmouth and Laplaine. Additionally, designs are being finalized for the construction of an indoor court in Portsmouth and this year, we will undertake upgrades to the Delices Playing Field and the Trafalgar Basketball Facility.

Mr. Speaker, I wish to emphasize that our investments in sports infrastructure are not just about the physical structures; they are about fostering healthier and more connected communities.

We must actively use these facilities. Let us not allow these investments to go to waste. Engaging in activities such as exercise groups and family sports days can strengthen community bonds and promote positive physical and mental health.

The rise of non-communicable diseases (NCDs) in Dominica is a serious concern. Conditions like diabetes, hypertension, and heart disease are becoming more prevalent.

Regular physical activity is a proven method to combat these ailments. By utilizing our sports facilities, we can encourage healthier lifestyles and reduce the incidence of NCDs, thereby fostering a more productive nation.

Mr. Speaker, all of us are aware, this government has been relentless in its quest to ensure **health and wellness** for all citizens. This is evident in the significant sums invested in health infrastructure, equipment, supplies and human resources.

We are thankful to God that this Dominica Labour Party Government has been able to build 15 new state-of-the-art health and wellness facilities throughout the island over the past five years. This includes two modern hospitals outfitted with cutting edge equipment on par with many large countries across the world.

In addition to these new amenities, Government has hired a number of specialists to enhance the quality of existing services as well as offer a variety of new health services which were not previously available in Dominica. For example, we have engaged a neurosurgeon. As a result, neurological surgeries are now being performed at the Dominica China Friendship Hospital and we have established a new neuro outpatient clinic. Other new medical interventions and services are available in cardiology, radiology, anaesthesia, ophthalmology, and vascular surgery and circulatory conditions.

In the case of cardiology and radiology, the new services are as a direct result of capacity building of clinical and clinical support staff through a technical agreement between the Governments of Dominica and the People’s Republic of China.

Another new service which was introduced last fiscal year is nutritional and dietary counselling to patients on the medical ward. Patients are sensitized on proper diet for their medical conditions and a meal plan is prepared for patients upon discharge.

Mr. Speaker, these deliberate and targeted investments in health have resulted in improved health services as well as a more aesthetically pleasing and comfortable environment for the patients, families and staff. It is important to note Mr. Speaker, that the Government has delivered these technologically advanced and costly medical services to the public at no additional charge.

Notwithstanding the significant improvements we have made, there are some other critical areas which the Government is addressing to further enhance patient outcomes as well as the patient and family experience when receiving care at our facilities—I speak specifically here about:

- a. New laws to better regulate health services including regulation of health practitioners;
- b. Establishment of more appropriate organizational sub-structures to manage and supervise day-to-day patient care;
- c. Strengthening of human resources including more training and better compensation for doctors, nurses and other service providers, and engagement of more providers;
- d. An integrated IT system which will provide secure gathering and storing of important patient information and making this information readily available to medical personnel engaged in providing care to the respective patients; and
- e. A better system, supported by technology, to manage the procurement and distribution of medicine and supplies.

I have been advised by the Minister for Health that five new health related bills have been finalized after consultation with numerous stakeholders and these bills will be taken to the House for consideration no later than October this year:—

- a) A Medical Profession Bill and a Nursing Profession Bill which will provide a more up to date framework for doctors and nurses to operate. Importantly, it will require them to engage in continuous learning so that patients can benefit from new advances in medicine and top quality care;
- b) A Pharmacy Bill and a Laboratory Bill will provide a strong regulatory framework to enable oversight of the operations of pharmacies and labs and ensure that the required standards are kept both at public and private facilities; and
- c) A digital Health Bill, will among other things, provide for the automation of health records and the necessary security requirements to support this automation.

This new regulatory framework is expected to greatly contribute to improvement in services as health care providers, patients and families will operate within the prescribed standards and requirements.

To improve patient care and outcomes, increase efficiency, and to acknowledge the special skills of our nurses by providing greater opportunities for upward mobility, Government has approved a new staffing structure for the nursing service. This new structure, which will take effect from January 1, 2025, will include a Chief Nursing Officer; a Director of Hospital Nursing Services; two Deputy Directors for Hospital Nursing Services; and a Director for Public Health Nursing Services.

Staff Nurses will now be classified as Registered Nurse 1 and Registered Nurse 2 and Nursing Assistants will now be classified as Licensed Practical Nurse 1 and Licensed Practical Nurse 2. A new level of Senior Family Nurse Practitioner has also been created. Furthermore, new positions have been created for the following specializations - Pediatric Nurse, Critical Care Nurse, Oncology Nurse, Orthopedic Nurse, Geriatric Nurse and Nurse Anesthetist as well as for support services, including Operating Room Scrub Aide and Dialysis Aide.

To ensure that the new structure achieves the desired objective, we have decided that all public sector nurses will remain employed by Central Government and be available for assignment throughout the State’s healthcare system. This will facilitate greater flexibility in the assignment of nurses.

Mr. Speaker, our next action is to implement a new structure for medical services. Government is currently reviewing a proposal which was prepared by our specialist doctors assigned to the Dominica Hospitals Authority. Once this exercise is complete, we intend to approve and implement the new structure during this fiscal year.

Another major advancement in health—the new Health Information Management System, will begin very shortly. An EC\$15.4 million contract has been awarded for the design, supply, and installation of a Health Management and Information System. This system aims to revolutionize and modernize the operations of the health care services in Dominica. Patients’ records will be stored electronically and be readily available to all health care providers within our hospitals and health centres. This new system will facilitate quicker, more efficient care and ultimately better patient experience and outcomes.

In addition, the system will enable the generation of medical reports and payment of bills. A stock management system to facilitate the procurement, distribution and monitoring of the stock of medicines and other supplies will also be a feature of this new IT system.

Mr. Speaker, while we await the implementation of this new Health Management IT system, Government has taken steps to strengthen the system of procurement and distribution of medical supplies.

We invited a team from the OECS Pharmaceuticals Procurement Division to undertake an assessment of our procurement and distribution systems. Several recommendations were made and have since been implemented. I am happy to report that the OECS has advised that our procurement system has met all acceptable standards including the availability of the approved medicines and supplies. Similar monitoring missions will be conducted at least once a year.

Mr. Speaker, we will continue to make strategic investments to provide quality healthcare services to our population. However, as a medical doctor and a former Minister for Health I wish to remind each of us, that our health begins with us.

The high incidence of NCDs places a significant social, economic and financial burden on our society. It causes a strain on the healthcare system, affects family life, and impacts the overall development of our country as more of our people become incapacitated or succumb to these illnesses.

To this end, with effect from September 1, 2024, Government will increase excise tax on sugary drinks by \$1.00 per litre, and alcohol and tobacco by 75 cents per litre and per kilogram respectively. We must take action to help reduce on the high incidence of NCDs in our country.

Let us as a people decide from today to act more responsibly and give greater attention to our wellness and wellbeing so that we can live healthier and God willing, longer lives.

Mr. Speaker, we recognize the vital role that human resource in the **public sector** plays in developing our economies, building resilience, and delivering effective services to the public. Our commitment to public and police officers remains a top priority for this government.

We know that job security is foremost in the minds of our officers. We are pleased that in the last financial year, a total of 292 officers in the public and police were appointed. Congratulations to all of the appointees including 71 teachers and 59 nurses.

Additionally, we implemented Phase 1 of the Organizational Review and Reclassification (ORR) of the Public Service last year. This phase introduced a revised salary structure, leading to varying salary increases for over 2,900 public and police officers. As a result of the job evaluation, 73 positions were upgraded, allowing some officers to move up to three levels on their salary scale. These changes, which took effect from September 1, 2023, resulted in a monthly wage bill increase of \$1.2 million, totalling \$14 million annually.

This is a clear indication that notwithstanding global economic challenges, this government continues to invest heavily in its public officers.

This year, Phase 2 of the ORR will begin, focusing on implementing recommendations regarding allowances for public officers. Provisions have been made in this financial year's budget for the payment of the increases in the allowances, and additional public service positions are being evaluated for implementation.

Mr. Speaker, two years ago, the government implemented a new structure for the secondary school teaching service, creating new positions at various levels. Many teachers have since received permanent appointments in these positions.

The government is also committed to the professional development of public and police officers. Over the past year, 567 officers received training in report writing, data analysis, information technology, communication, and events management. This investment in human capital underscores our commitment to excellence in governance.

BUILDING RESILIENCE

Mr. Speaker, the Honourable Prime Minister declared at the United Nations in September 2017, shortly after the devastation caused by Hurricane Maria, that Dominica would rebuild as the world’s first climate-resilient country.

Since then, we have made substantial progress, initially led by the Climate Resilience Execution Agency for Dominica (CREAD) from 2019 until its conclusion in December 2023. Currently, this effort has been transitioned to the Climate Resilience Execution Unit (CREU) which was established in February 2024 within the Ministry of Finance, Economic Development, Climate Resilience, and Social Security.

Out of necessity, we have invested in constructing hurricane-resistant homes and public buildings and procured advanced meteorological equipment and communication systems to ensure timely warnings to our citizens.

We are restoring and protecting our forests to mitigate climate change impacts and promoting sustainable agricultural practices to reduce import dependence and enhance food security.

This Government has also invested in various sectors such as tourism and renewable energy to decrease reliance on a single industry and diversify the economy. Financial and technical support to local businesses to foster a robust economic foundation continues.

Other key initiatives include developing a geothermal energy plant for sustainable and resilient energy; strengthening healthcare infrastructure; and constructing and retrofitting disaster-resistant schools. These efforts are part of our broader strategy to build a climate-resilient nation, serving as an example for other countries facing similar challenges.

Mr. Speaker, in recent years, we have intensified efforts to educate the population on disaster preparedness and climate change adaptation, empowering local communities to participate in resilience-building activities and decision-making processes. We continue to promote sustainable land management and the protection of marine and terrestrial ecosystems to preserve Dominica’s rich biodiversity and natural habitats.

Dominica has embraced technological advancements to enhance our resilience. Integrating information and communication technologies across sectors such as education, healthcare, and governance is improving efficiency and accessibility.

Mr. Speaker our journey towards resilience demonstrates the strength and determination of our people and underpins our growth agenda for this fiscal year, 2024-2025, and beyond. By integrating environmental sustainability, social development, technological innovation and economic diversification we are establishing a robust framework for a resilient future.

RESTORING AND PRESERVING THE ENVIRONMENT

Mr. Speaker, we must all play our part in reducing carbon emissions to limit global warming. In Dominica we are actively taking action to do this, as part of our commitment

to transition to 100% renewable energy by 2030. Our geothermal development efforts play a key role in that regard. We are also seeking to reduce the use of fossil fuels in the transportation industry. This year, we will focus on transitioning to low carbon transport through the phased implementation of a National E-Mobility Project, financed by the Green Climate Fund (GCF) which includes the establishment of 13 charging stations at strategic locations around the country, the introduction of electric vehicles for public transportation, providing concessionary financing to encourage the purchase of electric vehicles, among other initiatives.

Sadly though, minimal action has been taken by these developed and industrialized countries to mitigate this unsustainable situation. Although many have pledged financial support to small developing states like Dominica, which have been significantly impacted by destructive weather events, few have fulfilled these promises. We are grateful to those who have contributed, but the administrative processes to access these resources must be streamlined.

Mr. Speaker, Dominica has made significant progress in environmental restoration and preservation. Following Hurricane Maria, the government launched a forest and watershed restoration initiative, producing 350,000 plants by May 2024 and planting 300,000 trees in various parts of our country, including Loubiere, Jimmit, Sylvania, La Roche, Rosalie, Hampstead and Coulibistrie.

Several ecotourism sites and trails were also rehabilitated, and access to and management of national parks were enhanced with US\$3.5 million in financing from the Global Environment Fund (GEF). Other achievements include the implementation of the Green Climate Fund-Enhanced Direct Access (GCF-EDA) project to enhance climate adaptation and resilience, rehabilitate crucial infrastructure like drains and culverts, and integrate disaster risk management into the agricultural sector.

Our engagement with the Green Climate Fund will continue this year as the government seeks to increase Dominica’s resilience to the impacts of climate change and reduce our carbon footprint. Focus will be placed on developing the capacities of ministries and agencies to implement their components of the Climate Resilience and Recovery Plan, enhancing the enabling environment to facilitate investments in low-carbon initiatives, and direct financial investments.

Government has also secured grant funding from the Green Climate Fund totaling EC\$172.8 million to support investments over the next three years.

EC\$108 million of this amount, will be used to develop an Integrated Coastal Zone Management Project. This project will, among other things, (i) to provide new coastal infrastructure, such as, seawalls, breakwater and other structures to protect Dominica’s coastline; (ii) to help coastal communities’ build their resilience to climate change; (iii) enhance the forest along the coast to protect inland and reduce flooding; and (iv) help subsidize parametric insurance for vulnerable residents along the coastline.

Our recent experience with coastal flooding during the passage of Hurricane Beryl highlighted the importance of implementing additional measures to increase our resilience to coastal flooding. Therefore Mr. Speaker, this is exciting news for residents who reside and traverse in low lying areas, and for Dominica.

The remaining EC\$64.8 million from the GCF will be used for a Dominica Community Resilience Enhancement Project (DOMCREP) for communities beyond the coastal zones. This project will secure adaptation interventions in agricultural practices in rural communities,

build community shelters, and support the Met Office in its deployment of an early warning system.

Mr. Speaker, I have outlined major investments in housing, health, education, public services, the environment, and infrastructure projects. Projects such as the international airport, the Cabrits Marina, the Cable Car, the Enhancement of Roseau, the Cargo Port, the Cruise Village, the Geothermal Energy Plant and new Electricity Transmission System—along with new ventures in agriculture, value-added products, agro-processing, trade, and marketing, continue to pave the way for a dynamic, modern and resilient Dominica by 2030.

These efforts will create considerable business opportunities and numerous sustainable jobs, fostering prosperity among our citizens, including returning Dominicans. As a government, we are proud to be on track to achieve this significant transformation for Dominica.

REVENUE MOBILIZATION

Mr. Speaker, the expenditure budget which I have just presented is to be financed from a combination of Government’s revenue, loans and grants together totalling \$1,502.4 million and broken down as follows:

- Recurrent revenue in the amount of \$1,202.5 million
- Capital revenue of \$5.2 million
- Grants equivalent to \$112.4 million
- Loans at \$182.3

Of the \$1,202.5 million recurrent revenue which is projected, we expect to raise tax revenues of at least \$414.1 million, \$760.0 million through the CBI, and other recurrent revenues, such as fees and licences totaling \$28.4.

However, Mr. Speaker, these projections and more, can only materialize if we, as good citizens live up to our obligations and pay our taxes. This year, Government will strengthen the revenue collection systems to collect monies which are owed to the State. Too many businesses and people are owing income tax, value added tax, motor vehicle licences, company fees, hospital fees, and for land lots purchased from Government, among others.

Taxes, licences and fees are our contribution to the effective running of the State—including maintenance of our roads; ensuring we have medicines and supplies at our health facilities as well as nurses and doctors to provide services; securing the State and ensuring that our children receive an education. These are just some of the reasons why we must pay taxes—on time. If we do not pay our taxes we are denying the State the revenue it needs to better provide for our citizens.

Mr. Speaker, there are times you may hear Government has not paid this contractor or that service provider. However, it is really our nonpayment of our taxes which is often the main cause of this occurrence. To this end Mr. Speaker, I take this opportunity to congratulate the many who continue to pay their taxes and licences, on time.

As a country, we have made significant progress without imposing additional taxes on citizens. Thanks to the inflows from the CBI Programme which we have use to offset some of the capital costs that otherwise would have had to be borne by residents, and the prudent and responsible management of the country by this Labour Party administration.

OTHER CRITICAL MATTERS

Public-Private Sector Collaboration

In further preparation for the transformation of our beautiful country and the tremendous opportunities we anticipate, Government will this year, increase collaboration with the private sector. We will establish a committee comprising individuals from the public and private sectors to examine economic and social issues and make policy recommendations which will create a more conducive environment for further investments. The committee’s work will include input to address the issue of labour, including farm labour—as several jobs are available in Dominica but there is a scarcity of individuals to fill these jobs. Furthermore, the committee will review the wages which are being paid in Dominica and make clear recommendations regarding the minimum wage rate.

Mr. Speaker, Government will also be undertaking a review of the corporate income tax and will seek feedback from this Committee. We are of the view that some amendments can be made, in particular, to attract additional large investments, increase the number of jobs opportunities as well as allow businesses to self-insure and protect their investments.

Another important issue which the Public-Private Sector Committee will look into is the price of goods in Dominica. Government has removed import duty, and in some instances VAT, on a number of basic items used extensively by Dominicans.

Flour, rice, milk, baby formula, sugar, adult and baby diapers, agricultural and fishing inputs, machinery and equipment, animal feed, among others, enter Dominica free of import duty and VAT.

Government is deeply concerned that notwithstanding the reduction in charges, the shelf prices of many of these items remain very high. For example, Government removed the 15 percent VAT and duty on adult and baby disposable diapers, however, citizens have not benefitted from Government’s efforts to make these products cheaper.

Mr. Speaker, it is now time to have a conversation about this critical matter so that we could devise a plan of action to achieve the desired result—which is, a reduction in the price to consumers.

We must work to protect our vulnerable and their families, and provide the enabling conditions to reduce the cost of living.

Establishment of Tenancy and Rent Commission

Mr. Speaker, many of our citizens live as renters or tenants and it is crucial that we provide more robust protections to safeguard them against exploitation and guarantee access to safe and affordable housing.

The Government of Dominica is concerned about the exorbitant prices and poor quality of some rental properties available to tenants.

At present, the Tenancies and Rent Control Act, Chap. 54:72, is in place, and establishes a tribunal to address rental disputes. However, to improve rental conditions, protections and rights of both landlords and tenants, the Government of Dominica will establish a Tenancy and Rent Commission to address issues such as regulation of rent, protection against unjust eviction, and the enforcement of health and safety standards in rental properties.

The Commission’s initial action will be to pursue amendments to the Tenancies and Rent Control Act, to improve regulations and clearly outline the rights and responsibilities of both landlords and tenants. Additionally, the Commission will provide oversight of rental agreements and conditions, field queries and refer to disputes to the Tenancy and Rent Control Tribunal.

CONCLUSION

Mr. Speaker, development is a gradual process that requires certain sacrifices.

The Dominica Labour Party Government has consistently proven its ability to overcome every adversity it faces. We recognize global uncertainty, but we are undaunted by challenges. We have always punched above our weight and exceeded expectations; and despite the current difficulties in the world economy, this government will continue to make smart, calculated decisions to build the foundation for long-term prosperity—and this is exactly what we are doing in this year’s budget.

We are making strategic investments to create sustainable jobs, enhance revenue potential, and provide improved services and a higher standard of living for our citizens.

We are building a Dominica that will prosper due to our unwavering commitment to each other and to our country. Today, as we embark on this bold new path, we have every reason to be optimistic, hopeful and confident. Let us become a more caring and industrious people, willing to work hard, to defend, and to promote the best of our country.

Mr. Speaker, we can only rely on ourselves to build a Dominica that stands tall, not only in the Caribbean but on the global stage.

This Government is playing its part, through progressive, people centred policies and programmes, to provide the foundation for social and economic growth and development. But the Government cannot do it alone. This is our country to build. To achieve success, we require the collective effort of all Dominicans, working hand in hand with your government, to achieve the shared prosperity to which we aspire.

I am confident that with God’s continued grace and protection we can rise above every obstacle and secure a brighter future for succeeding generations.

Thank you, and may God bless the Commonwealth of Dominica.

PREFACE

(STANDARD OBJECT CODE)

The following is a list of the standard object codes which have been adopted:-

Standard Object Code

310	Personal Emoluments
312	Wages (Casual Labour)
313	Salaried Allowances
314	Non-Salaried Allowances
316	Retiring Benefits
318	Local Travel and Subsistence
319	International Travel and Subsistence
321	Commissions
323	Rewards and Incentives
325	Hosting and Entertainment
327	Training
330	Utilities
332	Supplies and Materials
334	Communication Expenses
336	Operating and Maintenance Services
338	Rental of Assets
340	Professional and Consultancy Services
342	Insurance
344	Grants and Contributions
346	Subsidies (Social Assistance)
350	Claims Against Government
352	Sundry Expenses
354	CBI Administrative Expenses
356	Interest Payments - Domestic
358	Interest Payments - Foreign
359	Repayment of Loans
360	Sinking Fund
362	Investment Financing
450	Purchase of Machinery
452	Other Machinery and Equipment

An explanation of the items which may be covered under these standard object codes is given in the statement below.

ITEMS TO BE COVERED		
310	Personal Emoluments	Payment of salaries to Government elected officials, their staff, and civil servants in established posts. Also included are payments made to these individuals in respect of bonuses, honoraria, overtime and Social Security Contributions.
312	Wages (Casual Labour)	Daily, Weekly, Fortnightly and Monthly paid wages to temporary employees (non-established). Also included are payments made to these individuals in respect of bonuses, overtime, leave pay/Holiday pay and Social Security contributions.
313	Salaried Allowances	Allowances to include Acting Allowance, Special Duty Allowance, Responsibility Allowance, and Subsistence Allowance.
314	Non-Salaried Allowances	All allowances in the nature of a salary addition paid to Ministers and civil servants, and Social Security contributions thereon. Also included is Transport Allowance and Combined Travel and Entertainment Allowance.
316	Retiring Benefits	Includes Gratuities, Pensions and Compassionate awards (Ex-Gratia).
318	Local Travel & Subsistence	Includes transport mileage and subsistence and other travel expenses incurred locally.

COMMONWEALTH OF DOMINICA**(ii)****ESTIMATES 2024/2025**

319 International Travel & Subsistence	Includes transportation cost, Subsistence Allowance and other travel expenses incurred overseas.
321 Commissions	Includes payment of Commissions to Agents, Crown Agents, Bailiffs and Tax Assessors.
323 Rewards & Incentives	Includes payments made to stimulate greater output by workers.
325 Hosting & Entertainment	Includes Government Entertainment, visiting Diplomatic Officers, Receptions and National Celebrations.
327 Training	Includes local and overseas training costs and expenses and scholarships.
330 Utilities	Includes charges for electricity and water consumed by Government Ministry/Department.
332 Supplies & Materials	Fertilizer and chemicals, Medical Supplies and Materials (Bedding), Office Supplies and Materials (Stationery), Port Charges (Freight, Handling, Loading etc.), Uniforms and Protective Clothing, Fuel and Lubricants, Food, School Materials, Furniture, Tools and Office Equipment, Electrical Materials & Fittings, Other Supplies.
334 Communication Expenses	Includes payment made for communication and postal services, telephone and Internet charges in respect of Ministries and civil servants.
336 Operating and Maintenance Services	Includes repairs to buildings, plant, machinery, furniture, vehicles, office and other equipment, upkeep of grounds and disposal of stores/documents.
338 Rental of Assets	Includes costs associated with the rental of Land, Buildings, Equipment, Furniture and Transport.
340 Professional and Consultancy Services	Includes Professional Services such as Legal, Management Consulting, Data Processing Research and Development.
342 Insurance	Includes Medical, Vehicular, Property and Travel Insurance.
344 Grants and Contributions	Includes payment of Grants and Contributions to Local, Regional and International Institutions.
346 Subsidies (Social Assistance)	Casual Relief Payments such as Medical Treatment overseas, Stipend to Discharged Prisoners and Social Welfare.
348 Refunds	Includes Customs Refunds and Income Tax Refunds as well as Rebates and Drawbacks.
350 Claims Against Government	Includes compensation for claims against Government.
352 Sundry Expenses	Includes, Advertisement, Statistical Surveys, Promotions all other expenses not appropriately classified in one of the other Object Codes.
354 CBI Administrative Expenses	Includes cost associated to CBI Marketing and due diligence fees.
356 Interest Payments - Domestic	Interest payment and other charges for Domestic Debt.
358 Interest Payments - Foreign	Interest payment and other charges for Foreign Debt.
359 Repayment of Loans	Repayment of capital and adjustments for loss on foreign exchange.
360 Sinking Fund	Contributions by the Government towards the establishment of a Fund for the purpose of redeeming loans.
362 Investment Financing	Investments
450 Purchase of Machinery	Includes expenditure for the acquisition of transportation, vehicles, machinery and equipment.
452 Other Machinery and Equipment	Acquisition of all Machinery and Equipment, except for transport. The category includes furniture, paintings and book collections in libraries for the purpose of providing services.

D21 - Office of the President

Mission Statement

To provide administrative support to enable the President to carry out the duties of the Office as set out in the Constitution; and to provide general advice to foster national unity at home and abroad, aimed at promoting national economic growth and development and at attaining a resilient, sustainable and modern nation-state.

Vision Statement

To be a model of professional excellence

Core Values:

In carrying out its Mission, the Office of the President and its Staff are guided by the following

- **Professionalism** - We honor our commitments to get the job done in keeping with the applicable rules and procedures
- **Excellence** - We are committed to demonstrating the highest quality of service and performance
- **Integrity** - We conduct ourselves in a manner that demonstrates confidentiality, good judgment, trustworthiness and steadfastness
- **Courtesy** - We exhibit politeness with due regard and respect for all
- **Diligence** - We exhibit the highest level of initiative, dedication and energy in the performance of our duties
- **Ecofriendly** - We are committed to complying with Government's Climate Resilience Development program, and support activities and programs that help conserve Dominica's pristine environment.

Key Result Areas:

Stated hereunder are the Key Result Areas (KRAs) of the Office of the President which aim to provide further insights into our strategic direction as we undertake to meet our goals:

- (i) Administrative Management
- (ii) Organizational Capacity Building
- (iii) Property Management
- (iv) Occupational Health and Safety Management
- (v) Education and Public Awareness

The role and functions of the Office of the President are clearly outlined in the Dominica Constitution, along with the duties, responsibilities and related protocols, which are significant in themselves and are a very important aspect of the very functioning of the State. These duties are critical to maintaining the nation's political unity and guaranteeing constitutional powers.

Responsibilities and Duties:

To both support the President as he carries out his functions as set out in the Constitution, and to take full responsibility for the administration, security and maintenance of:

- (i) The Office of the President;
- (ii) The Official Residence of the President and State House Conference Centre;
- (iii) The other buildings on the Complex, the official vehicles and grounds, in a manner that will encourage high performance and lend support to Government's climate resilience, Sustainable and transformative goals;
- (iv) To influence political thought and institutional direction in the national interest;
- (v) To provide official services to the general public, and to government agencies and organizations at home and abroad;
- (vi) To serve as a mediator in times of national crisis and to be instrumental in preparing the nation to co-operate with the government's policies and programmes; and
- (vii) To play a meaningful role in the implementation and execution of government's laws, policies and programmes through its constitutional and legislative support.

D22- Integrity Commission

Responsibilities and Duties

- Receive, retain and examine all declarations filed with it;
- Make such enquiries as it considers necessary in order to verify or determine the accuracy of any declaration filed with it;
- Inquire into any allegation of bribery or act of corruption under the Act;
- Receive and investigate complaints regarding non-compliance with provisions of the Act; and
- Perform such other function as is required under the Act.

Mission Statement

To establish effective oversight of the financial affairs of persons in public life in order to foster a culture of integrity, accountability and probity, and to respond to complaints of corruption in public office.

Vision Statement

A nation free of corruption and governed by persons in public life who are imbued with the highest standard of integrity.

Key Result Areas:

- (i) To promote integrity in governance;
- (ii) To provide effective oversight of the administration of public functions;
- (iii) To encourage transparency in transactions, and maintain legal compliance by persons in public life and other public officials;
- (iv) To ascertain that public institutions are free of corruption so that the highest standards of honesty, equity and fairness will be observed in the use of public resources and in the distribution of benefits for the welfare of the people of our nation.

D25 – Legislature

Responsibilities

The House of Assembly has responsibility for the overall administration of all matters relating to Parliament.

The Department also recognises the importance of improving the image of and respect for Parliament in the society.

Mission

“To provide services and procedural advice to Parliament to enable it to become an efficient, well-advised Legislature”

Vision

“To ensure that an efficient, reliable and professional service is provided to Parliament; that a close relationship continues to be fostered between the House of Assembly and its clients; and through constant updating and proper classification of its records that it continues to be a reliable repository for all documents/papers relating to Parliament.

Key Result Areas (KRAs)

Five Key Result Areas (KRAs) have been identified to meet the priority needs of the Office. Strategic Objectives were developed to support these KRAs and are outlined below.

KRA 1. Accurate, high quality procedural advice to the House of Assembly

- Provide sound advice in accordance with the relevant laws and precedent to speaker and members of the house
- Research various matters pertaining to legislature as requested locally and overseas

KRA 2. Business of Parliament conducted in an efficient and cost-effective manner

- Organise administrative details for meetings of the house
- Efficient and effective record keeping for all decisions taken during parliamentary proceedings
- Production of minutes of proceedings and follow-through/follow-all parliamentary matters
- Manage and improve physical infrastructure of Parliament

KRA 3. Processing of legislation for publication within four weeks

- Accurate amendments to all legislation passed by Parliament
- Complete all remaining processes for assent of legislation

KRA 4. Efficient and effective support to select and other committees of the House

- Organise administrative details for meetings of all select Committees of the house

- Efficient, effective and accurate record of decisions of all meetings and follow-up of matters to be discussed
- Production of minutes of proceedings of select and other committees

KRA 5 Efficient and effective support to the Commonwealth Parliamentary Association (Dominica Branch)

- Maintain Register of membership, keep accounts of the commonwealth Parliamentary Association (Dominica Branch)
- Organise administrative details for all meetings of Commonwealth Parliamentary Association
- Accurate recording of decisions of meetings and production of minutes of proceedings

D26 – Audit Department

Responsibilities

The Office of the Director of Audit shall be responsible for:

- Developing and maintaining a comprehensive internationally accepted auditing program for evaluating the financial and operational systems and procedures of all Government of Dominica activities.
- Examining financial transactions for accuracy and evaluating compliance with all applicable laws and regulations, Cabinet Decisions, internal policies and procedures;
- Evaluating the cost effectiveness and efficiency of Government of Dominica activities;
- Ascertaining the adequacy of controls for safeguarding the State's assets and liabilities and, when appropriate, verify the existence of assets and liabilities;
- Appraising the timeliness, reliability, usefulness and integrity of Government's records and financial reporting;
- Maintaining technically competent staff by ensuring continuing education and active involvement in professional activities;
- Reporting audit findings with recommendations to the Parliament of the Commonwealth of Dominica through the Minister for Finance;
- Performing a variety of audit types and fraud detection.

Vision

We strive to be an independent Supreme Audit Institution that effectively promotes accountability, transparency and integrity in the use of public resources.

Mission

To enhance good governance and public accountability through the conduct of audits to ensure better financial management and optimum use of public resources to maintain sustainable development.

Key Result Areas (KRAs)

1. To determine the integrity of the State's Public Audit process through the application of Internationally Accepted Public Sector Auditing Standards.
 - All work plans, working papers and reports must demonstrate compliance with International Public Sector Audit Standards.
2. Raise awareness of financial management and audit issues through the publication of high quality, accurate and timely audit reports.
 - Produce an annual audited report on the Financial Statements within eight (8) months of the year's end;
 - Produce one best practice report on a general issue of financial management containing practical advice on systems improvements;

- Produce at least one Value-for-Money Audit report during the financial year.
3. Improve the systems and processes of Public Sector Financial Management by providing justified and realistic recommendations
- Produce reports with recommendations to Permanent Secretaries and Heads of Departments.

D27 - Ministry of National Security and Legal Affairs

Overview

National security forms part of the country's top priorities, considering the negative implications on the economic and social environment, if not properly managed. The issue of national security is cross-cutting and affects every fragment of our society, from attracting investors to the quality of life of our citizens.

Mission

To provide sound legal advice and representation to the Government of the Commonwealth of Dominica and all Departments of Government, to administer justice, to protect and promote Intellectual Property Rights, and ensure proficient analysis and investigation of financial crimes in an efficient manner.

Vision

To attain and maintain a just, efficient, and respected justice system.

Core Values

The functions and powers for public officers are enshrined in the following values:

- Respect for democracy
- Impartiality
- Non-partisanship
- Loyalty
- Integrity
- Accountability
- Stewardship and excellence

Key Results Areas

- KRA#1:** To identify, assess, and reduce the risks of disaster, socio-economic vulnerabilities to disaster as well as dealing with the environmental and other hazards that trigger them.
- KRA#2:** Utilize a multi-dimensional approach to contain and reduce crime, including more effective law enforcement and policing and social interventions designed to discourage a lifestyle of crime and violence, and promote Dominica as a peaceful country.
- KRA#3:** Build the capacity of the Dominican labour market to resist, adjust, and quickly recover from negative shocks.
- KRA#4:** Police Stations and the Prison should be resilient and built to withstand natural disasters to ensure the safety of officers and offenders during and after a disaster.

Strategic Objective:

- To ensure timely and effective administration of justice
- To promote timely and effective dispensation of justice
- To provide improved protection of life and property
- To provide improved community resilience and enhanced national emergency systems

Divisions within the Ministry

- Office of the Permanent Secretary and Central administration
- Chambers of the Attorney General
- Commonwealth of Dominica Police Force
- Dominica Fire and Ambulance Services
- Office of Director of Public Prosecutions
- Companies and Intellectual Property Office
- Legal Aid Clinic
- Registry & Supreme Court Administration
- Immigration
- Dominica Prison Services
- Financial Intelligence Unit
- Integrity in Public Office Administration
- Office of Disaster Management
- Dominica Meteorological Services
- Magistrate's Court
- Land Titles Registry

D28 – Elections

OUR ROLE AND GOALS

RESPONSIBILITY

The Electoral Office has responsibility for registration of electors and conducting Parliamentary and Local Government Elections.

MISSION

To maintain an accurate register of electors, facilitate the efficient conduct of free and fair elections, serve the public with efficiency and impartiality and maintain the integrity of the electoral process.

VISION

To have a fully equipped automated and self-sufficient Office, updated legislation and modern procedures and practices to ensure that the independence of the Office and transparency of the electoral process are maintained.

D30 - Office of the Prime Minister

Overview

The Office of the Prime Minister (OPM) provides guidance on matters of national importance and leads the planning and implementation of policies for the development and progress of Dominica. The OPM establishes the Government of Dominica's overall growth strategy and sets national priorities.

The OPM advocates a *National Reset*, which prioritizes people centered, inclusive policy and decision-making, giving priority to increasing citizen engagement, improving communication and fostering greater transparency and accountability. The Office is focused on building resilience; enhancing communities; strengthening the Dominican society and bolstering the economy against external and environmental shocks.

The Office of the Prime Minister promotes six results areas for the creation of a climate-resilient Dominica, namely:

The building of Strong Communities;

A Robust Economy;

Well-planned and Durable Infrastructure;

Enhanced Collective Consciousness;

Strengthened Institutional Systems; and

Protected and Sustainably Leveraged Natural and Other Unique Assets.

The Office of the Prime Minister is spearheading a number of major national projects aimed at developing stronger communities and families as well as resilient homes and public infrastructure; and promoting wealth creation and financial resilience among citizens. Among major initiatives, the Future Housing Programme offers quality homes to young professionals seeking to achieve economic independence; the Cable Car Project in the Roseau Valley, ongoing Hotel Development such as Tranquility Resorts (Hilton), Anachi Resort and Spa (Marriott) and the construction of a Marina in Portsmouth are projected to spur long-term growth in the tourism sector; and the construction of the International Airport in Wesley will improve air access and contribute to sustainable economic development.

Vision Statement

The OPM aims to advance government policies, programmes and projects that meet the socio-economic development needs of the Commonwealth of Dominica.

Mission Statement

To drive sustainable national growth and development; and to play a leading role in steering and coordinating actions for the effective execution of the national development strategy captured in Agenda 2030.

Role and Core Values of the OPM

The OPM is characterized by a fast-paced, engaging and dynamic office culture. It cultivates a sense of pride among unit staff who contribute to the accomplishment of outcomes for sustainable national development. The primary role of the OPM is to support the Prime Minister in fulfilling his constitutional functions as the lead in the conduct of Government business.

The overarching goal of the Office of the Prime Minister is to improve service delivery by embracing the following core values:

- Respect for democracy
- Impartiality
- Non-partisanship
- Loyalty
- Integrity
- Confidentiality
- Professionalism
- Accountability
- Collective Consciousness

Responsibilities

The Prime Minister has constitutional responsibilities, which make his office accountable to the citizens of Dominica and the Parliament. These specific functions include:

- Coordination and supervision of the execution of Government functions including portfolio responsibilities assigned to ministries.
- Overall Governance and Policy Formulation.
- Policy Development related to specific portfolios assigned to the Prime Minister.
- Monitoring and evaluation of portfolio policies.
- Appointment of Senior Public Officers and Commissioners.
- Other specific duties under the laws of Dominica.

Priority Areas

The primary areas for the Office include:

- Supporting the implementation of Government policies, plans, programmes and projects, in particular the major projects under the Public Sector Investment Programme (PSIP).
- Strengthening capacity for mitigation, preparedness and response to natural and human-induced disasters;
- Supporting and monitoring the implementation of Government's socio-economic development action programmes and projects;
- Strengthening all internal, strategic functions that support the OPM.

D31 - Ministry of Finance, Economic Development, Climate Resilience and Social Security

Overview

The Ministry of Finance acts as the central agency responsible for overseeing the management and control of Government finances to ensure the appropriate use of public funds, which will foster sustained economic growth. The work of the Ministry of Finance is pursued partly through its oversight responsibility for resource allocation in the capital and recurrent budgets as implemented in the respective line Ministries.

Mission

To provide efficient and effective financial and economic management for sustainable national development.

Vision

To operate a financial system based on international best practices through prudent macro-economic and fiscal policies built on proper resource allocation, prudent expenditure management, the achievement of a primary surplus, savings, investments, and a stable financial sector.

Core Values

The Ministry of Finance has been predominantly known for resource mobilization and expenditure management within the Public Service. This stems from staff that is committed to functioning with integrity, possess the required expertise and problem-solving skills as it provides services to clients through the effective use of resources. These values guide the actions of the staff of the Ministry. The Ministry is therefore committed to: -

- Financial credibility
- Prudence and frugality
- Integrity
- Accountability
- Knowledge
- Productivity
- Excellence
- Rule of law
- Resilience

Key Results Areas

- KRA#1** Public Expenditure Management & Financial Accountability
- KRA#2** Macroeconomic Policy, Development Planning, and Reporting
- KRA#3** Economic Growth, Resilience and Sustainable Development
- KRA#4** Economic and Social Planning and Research
- KRA#5** Revenue Collection
- KRA#6** Organizational & Managerial Effectiveness of the Ministry of Finance

- KRA#7** Ensure compliance with Public Procurement Act, Regulations and other documentation
- KRA#8** Financial Sector Management and Services
- KRA#9** Relations with External Financial Institutions
- KRA#10** Capital Investments, Resource Mobilisation and Management
- KRA#11** Ensure that all buildings meet international safety standards with maintenance procedures and safe for use of personnel utilizing such facilities

Goals

- To be most efficient in resource generation, allocation, and utilization;
- To provide very clear, informed and objective leadership on financial management issues;
- To provide annually a fiscal framework within which the budget can be prepared and executed;
- To work towards a current account and a primary surplus on an annual basis;
- To contribute to improving investment planning through the Public Sector Investment Programme;
- To facilitate the optimal implementation of Government's dynamic development policies, strategies and plans in support of resilient and sustainable development;
- To provide the enabling environment for local as well as foreign investments;
- To inform economic and social policymaking and analysis by undertaking rigorous re-search into various socioeconomic challenges, their causes and consequences in Dominica;
- To collect, collate, analyze and disseminate statistical information relevant to national development;
- To create an environment in public procurement that is equitable, open, fair, and transparent and beneficial for the efficient use of resources.

Divisions within the Ministry

The Ministry of Finance has a complement of Fourteen (14) Divisions, namely:

- Accountant General's Office;
- Budget Unit (includes Debt, Budget Management);
- Building Maintenance Unit;
- Central Procurement Unit;
- Central Statistical Office;
- Citizenship by Investment Unit;
- Customs & Excise Division;
- Financial Services Unit;
- Inland Revenue Division;
- Macroeconomic and Policy Planning Unit;
- Office of the National Authorizing Office;
- Policy Formulation and Administration;
- Planning Unit (Public Sector Investment Programme Unit and Economic and Social Planning Unit)
- Climate Resilience Unit

D32 - Ministry of Agriculture, Fisheries, Blue and Green Economy

Overview

The Agricultural Sector has traditionally contributed up to thirty per cent (30%) of national output in the early 1980s throughout which it has been historically defined as the primary production of crops, livestock, forestry, and fisheries, to include food and non-food processing of agriculture produce at the micro and small-scale level.

The sector was dominated by international and regional trade under preferential market treatment and coupled with a tradition of low foreign direct investment (FDI), characterised by a high level of dependence on government spending or public sector investment programmes and remittances to households. As the engine of growth in Dominica, agriculture creates employment, supplies wholesome foods, generates wealth, and maintains socio-economic growth and development, making a significant contribution to rural livelihoods and national food and nutrition security.

However, the economy has transitioned from agriculture and agro-industry to the high value services sector exposing economic vulnerability and volatility compounded by frequent and increasingly catastrophic natural disasters, access to markets, credit, and labour, poor farm road conditions, the incidence of pest and disease infestations, and global economic shocks as war, fuel crises, recessions, global inflation, and delays in delivery on international financial commitments to climate change.

The Ministry of Agriculture, Fisheries, Blue and Green Economy (MAFBGE) is charged with the responsibility to pursue a new target set for the Agricultural Sector to contribute 700 million dollars to national output measured by the Gross Domestic Product (GDP) by 2030.

The Agricultural Sector's performance at the end of 2022 revealed that Agriculture contributed only \$273 M or 16.03% to GDP, – the sector performance however depends a high level of coordination and collaboration and the capacity to address these cross-cutting challenges and to forge intra-sectorial linkages and synergies with a clear long-term vision to increase productivity, profitability, and efficiency.

In pursuit of this target, the Agriculture Transformation Roadmap calls for innovation, collaboration, adoption of modern and climate-smart technologies, and transition towards a “blue and green economy”.

Vision

Transformation of the Agricultural Sector into the leading contributor to economic development through the application of sustainable agriculture principles, scientific knowledge, and modern technologies that leverages our biodiversity, human and natural resources land, soil, and water for building an efficient, productive, self-sufficient, profitable, and resilient Agricultural Sector in Dominica.

Mission

To facilitate and promote the sustainable development of a resilient agricultural and fisheries sector, and blue and green economic investments for the production, processing, and marketing of healthy nutritious foods, value-added products, and the provision of agricultural services that contribute a minimum of 700 million dollars to national output or GDP by 2030.

Key Results Areas (KRA)

- KRA#1** Sustainable Crop Production
- KRA#2** Sustainable Livestock Development
- KRA#3** Sustainable of Fisheries Development
- KRA#4** Agribusiness Development
- KRA#5** Blue Economy Development
- KRA#6** Youth Participation in Agriculture
- KRA#7** Agricultural Education
- KRA#8** Climate Change Adaptation, Resilience, and Disaster Risk Management
- KRA#9** Technical Cooperation and Partnership Initiatives

Goals

Strategic repositioning of the Agricultural Sector in recognition that the inherent and extrinsic challenges hinder performance, a different yet strategic focus is required to optimize use of existing financial, human, and institutional resources, reprogramming, repositioning, reengaging, repurposing, or resetting them to harness market-driven investment opportunities that

- enhances competitiveness and improves market access
- generates, adds, and retains productive value
- uses natural resources sustainably
- leverages biodiversity
- meets domestic and regional food and nutrition needs, and
- increases resilience to agronomic, economic, and climate-induced shocks.

Divisions/Units within the Ministry Divisions

- Fisheries
- Agriculture
- Agribusiness

Units

- Policy Formulation, Planning, and Administration Unit
- Sustainable Agriculture Development Unit
- Agricultural Health Food Safety Unit
- Research and Development Unit
- Agricultural Education, Training and Extension Services Unit
- Agriculture and Fisheries Data Management Unit
- Agriculture Engineering and Infrastructure Maintenance Unit
- Blue Economy Unit
- Agricultural Investment Unit

D33 - Ministry of Education, Human Resource Planning, Vocational Training and National Excellence

Overview

Subsequent to the Establishment of the Education Act in 1997, there has been significant progress in education in Dominica. The widening of access to Education and improvements in the quality of education produced many accomplished citizens who continue to contribute to national development. Dominica's education system is guided by the principle that all citizens can learn and should be afforded access to education.

As reflected in the previous mission statement of the Ministry of Education, the purpose of education '*is to prepare all citizens to live productive lives in a complex and changing society*'. This overarching mandate guided the government's investment in the modernization of the sector. Cabinet's approval and subsequent implementation of a National Curriculum framework in 2006, encouraged renewed efforts to promote Technical Vocational Education and Training (TVET) and Information Communication Technologies (ICTs) in schools. These initiatives provide students on a path to success based on varied educational options.

In the past two decades, the sector has been redefined by the creation of full access to education at the early childhood, primary and secondary levels and significantly expanded access to Tertiary Education.

Mission

To educate and prepare all students to live productive lives in a complex and changing society

Vision

Every Learner Succeeds

Core Values

Fundamental to the success of the entire Ministry of Education and Human Resource Planning, Vocational Training, National Excellence are these basic values and key principles, which will guide individual and collective actions, and underpin developments for every learner:

- Empowerment
- Personal Development
- Child Friendly
- Inclusive
- Effective
- Quality
- Integrity
- Spiritual Growth
- Innovative
- Creative

- Diversity
- Excellency
- Efficient
- Mastery

Key Results Areas

- KRA#1** Improve, expand, and ensure access to and participation in education at all levels.
- KRA#2** Enhance the quality and efficiency of educational services.
- KRA#3** Enhance management & governance functioning within the education system enhancing quality.
- KRA#4** Enhance appropriate and diverse curriculum & assessment strategies.
- KRA#5** Establishing standards and practices for construction of schools in alignment with national resilience guidelines.
- KRA#6** Building resilience within the education system.
- KRA#7** Reporting monitoring, evaluation.
- KRA#8** increase the access to opportunities by the underprivileged to enhance their marketability and improve livelihoods

Strategic Objectives

- Ensuring inclusive and equitable Quality Education and promoting lifelong learning opportunities for all is at the heart of the Ministry's strategy.
- Ensure access to inclusive and quality education for all learners at all levels including early child- hood education.
- Ensure inclusive quality and relevant education to all learners, leverage learning technology to foster collaboration & personal learning and empower our staff.
- Ensure quality, efficiency, and good governance of educational institutional performance, including the delivery of teaching, review operational procedures, and implement changes for optimal staff levels.
- Ensure safe, conducive, and challenging learning environments, close proficiency gaps in student achievements, and develop a culture of customer service.
- Strengthen the capacity for resilience through developing science, innovation, technical and vocational education and to attract and prepare students for higher education and to meet the labor market needs of Dominica, provides skills for employment and economic development in Dominica. Embed 21 st-century innovation and creativity into the educational experience.
- Provision of quality, efficient, transparent administration services in accordance with quality standards
- Increased general library services and clientele
- Equitable access to information and research materials to enhance learning
- Expanded archival and documentation facilities
- Improve the literacy skills of the adult population and promote activities aimed at life-long learning for self-reliance and improved prospects for employment in basic skills.

Divisions within the Ministry

- School Operations Unit
- Curriculum, Measurement and Evaluation Unit
- Education Planning Unit
- Early Childhood Unit
- Library & Information Services
- Adult Education

D34 - Ministry of Housing and Urban Development

Overview

The Ministry of Housing and Urban Development (MHUD) is charged with the responsibility of providing leadership in coordinating the construction of resilient housing across the communities in Dominica, augmenting urban centers, and supporting the improvement of existing housing stock to become compliant to national building standards, and facilitating major national development initiatives within the public and private sectors.

Mission

To facilitate sustainable and responsible land management, integrated physical planning, well-planned augmented urban centers and the provision of quality, affordable and resilient housing solutions that enhance the quality of life of present and future generations, promotes social equity, and fosters economic development, and delivered with technically sound, effective, and efficient public services.

Vision

To become an efficient Government agency that collaborates closely and coordinates harmoniously to deliver a dynamic and sustainable built environment where responsible land use, well-planned urban centers, and safe and accessible housing solutions converge and are mutually reinforcing to create inclusive, resilient, and vibrant communities that prioritize the well-being and aspirations of all residents, maximizing the positive impact on the socio-economic development of Dominica.

Core Values

The Ministry encourages innovation, resilience, and sustainability through the core values of:

- Teamwork – ensure a supportive environment and work culture where each one can depend on and complement each other's effort for greater organizational performance;
- Accountability – accountable to all stakeholders by ensuring efficient, economical, effective, and prudent administration of public resources;
- Professionalism - due regard and commitment to quality assurance and efficiency;
- Diligence - dedicated application and effort in getting the job done;
- Respect - responsive to public needs and rewarding abilities and achievements;
- Loyalty - devotion and steadfastness to duty, colleagues, authority, and country.

Key Results Areas

- KRA#1** Affordable and Sustainable Housing Development
- KRA#2** Inclusive, Safe, Resilient, and Sustainable Urban Development
- KRA#3** Accessible and Sustainable Land Use Management
- KRA#4** Efficient and Sustainable Physical Planning

Goals

The Ministry of Housing and Urban Development herein seeks to:

- To construct five thousand (5,000) new modern, sustainable, and resilient homes in Dominica, while increasing the overall contribution of the housing sector to economic growth, reducing unemployment, and alleviating poverty;
- To foster the creation of inclusive, safe, resilient, and sustainable urban centers that prioritize the well-being and quality of life for all residents, while promoting environmental stewardship and economic growth;
- To ensure equitable access to safe and suitable lands for various developmental purposes, while promoting environmental protection and sustainable land use practices in alignment with the national land-use policy; and
- To ensure efficient and sustainable physical planning practices that promotes orderly development, environmental protection, and the well-being of communities.

Divisions/Units within Ministry

- Lands and Surveys Division
- Housing Division
- Physical Planning Division

Units

- Policy and Administration
- Property Valuation
- Housing Recovery Project Implementation
- Urban Development

D36 - Ministry of Health, Wellness and Social Services

Overview

The Ministry of Health Wellness and Social Services has the overall responsibility to develop and promote health, wellness and social services, using a collaborative approach, with various stakeholders whilst keeping abreast with current standards of international practice.

Built on the Primary Health Care (PHC) model of care, the Ministry attempts to provide Universal Health Care (UHC) coverage to all residents and will therefore, fulfill its mandate through the implementation of various programmes to meet the needs of the populace, the promotion of gender equality and equity, provision of social services and care for vulnerable groups including children, elderly, and persons with disabilities.

The Ministry of Health, Wellness and Social Services will continue to provide effective and efficient services to the populace, including the most vulnerable, geared towards their empowerment and self-enhancement to better contribute to the socio-economic development of Dominica.

In this regard, the Ministry will further seek to improve, promote and enhance the ability of persons to contribute to their wellbeing through its leadership, effective and efficient policy formulation, resource mobilization, as well as the monitoring and regulation of delivery of health and social care services, whilst recognizing the importance of keeping with the government's mandate of Dominica becoming the first climate resilience country in the world, as well as the principles of the Sustainable Development Goal Agenda 2030 which articulates that for the goals to eradicate poverty and break the cycle on inequality, interventions must benefit all citizenry.

Mission Statement

To create supportive environmental and social programs that will enhance quality of life with a specific focus on the vulnerable and the persons with disabilities and the ability of the populace, to better manage their own health and welfare, by promoting a high quality of life through preventive, curative, promotive, rehabilitative health care and social support services, and the cultivation of a spirit of resilience through the implementation of appropriate and empirical interventions.

Vision Statement

Building a more Resilient Health and Social Services System

Core Values (includes values adopted from the Public Service Act)

The core values governing the Ministry of Health, Wellness and Social Services are:

- Respect for democracy
- Impartiality
- Non-partisanship
- Loyalty
- Integrity and Trust

- Accountability
- Professionalism & Excellence
- Partnership & Collaboration
- Confidentiality
- Inclusiveness
- Empathy
- Patriotism
- Stewardship
- Realism & Pragmatism

Divisions within the Ministry

- Policy Formulation and Administration
- Health Administration
- Health Information Unit (HIU)
- Primary Health Care Districts
- Medical Laboratory
- Central Medical Stores (CMS)
- Environmental Health Department (EHD)
- Health Promotion Unit (HPU)
- Drug Prevention Unit (DPU)
- National HIV/AIDS Response Programme (NHARP)
- Dental Services
- Dominica China Friendship Hospital
- Marigot Hospital
- Department of Social Services
- Gender Affairs Unit
- Child Care and Protection Unit
- Social Welfare Services Unit
- Probation Unit
- Counselling and Therapeutic Services Unit
- Yes We Care Unit
- CHANCES

Portfolio of the Ministry

- Laboratory Services
- Pharmaceutical Services
- Preventive Curative and Rehabilitative Medical Services
- Oral Health Services
- Surveillance of Diseases and Information System for Health and Social Services
- Family Planning
- Food and Drug Regulation
- Health and Social Services
- Hospital and Health centers

- Environmental Health
- Care and protection of Children and Young persons
- Social Services, Welfare and Public Assistance
- Bureau of Gender Affairs
- Disabilities
- Relations with DAPD
- Elderly
- Yes We Care Programme
- Relations with Council on Aging
- CHANCES
- Adoption
- Probation Services

Key Result Areas:

- KRA #1** Renew focus on Primary Health Care Services and strengthen capacity to deliver client-centered services;
- KRA #2** Strengthen Secondary Health Care Services capacity to deliver client-centered services;
- KRA #3** Greater private sector involvement in the provision of health care services
- KRA #4** Develop the appropriate HR skill mix to sustain the health and social services system
- KRA#5** Develop Human Resource skill mix and information system
- KRA #6** Transform and manage internal processes and procedures to improve service quality
- KRA#7** Health promotion focus on behavioral change through prevention and empowerment of communities Strengthen
- KRA#8** Provide early detection and treatment of communicable and non-communicable diseases
- KRA#9** Reduce and manage the impact of emergencies and disasters in health and social services
- KRA#10** Strengthen institutional structure of the health and social services system
- KRA#11** Strengthen surveillance system for management of communicable and non-communicable diseases
- KRA#12** Promote and protect the health and holistic wellbeing of older persons
- KRA#13** Improve access to health and social services care for persons living with disabilities
- KRA#14** Reduce social and economic inequalities
- KRA#15** Reduce the incidence of abuse and domestic violence among the vulnerable groups
- KRA#16** Provide technical, vocational and social related skills training for men, women and youth
- KRA#17** Strengthened mechanisms to manage gender issues and promote gender mainstreaming
- KRA#18** Enhance delivery of specialized social services
- KRA#19** Build a resilient population through community empowerment and social interventions

Strategic Objectives:

- To maintain Health Services that respond to the needs of the populace by renewing focus on Primary and Secondary Health Care services
- To strengthen private sector collaboration in the provision of Health and Social Services
- To provide an adequate and motivated workforce equipped to provide quality health services
- To improve the Health and Social Services through the application of ICT, and safe and judicious use of medical technology
- To provide Universal access to equitable quality health care inclusive of essential medicines, through sustainable financing, aligned to national priorities
- To improve the health and quality of life of selected vulnerable groups and individuals in the population
- To provide a responsive social services delivery system to meet the needs of individuals, families and communities
- To empower individuals to take responsibility for their health and well being
- To strengthen the institutional structure in order to improve the delivery of the Health and Social services
- To strengthen the legislative and policy framework of the Health and Social services system
- To manage Communicable and Non-Communicable Diseases by reducing morbidity and mortality through early detection and prevention.
- Formulate and administer policies to guide programs of the Ministry
- To foster a social and economic environment for men, women and to acquire the skills and experience required to access existing and future employment opportunities and to effectively address their various social and economic challenges
- To promote gender equity and equality and create the necessary framework for gender mainstreaming in Dominica
- To provide care and protection for senior citizens, children, young persons, youth-at-risk and persons with disabilities while preserving their dignity and sense of worth
- To advocate for and provide relevant assistance geared towards the well-being of persons with disabilities;
- To implement programmes aimed at poverty reduction and social protection for vulnerable groups
- To facilitate improved access to resources for participation in social and economic development
- To promote the acquisition of skills for a more resilient society

D38 - Ministry of Environment, Rural Modernisation, Kalinago Upliftment and Constituency Empowerment

Overview

Over the past five (5) years the Commonwealth of Dominica's susceptibility to the impacts on climate change continues to increase in frequency as well as intensity. In August 2015, Tropical Storm Erika severely impacted the country following intense rainfall which caused catastrophic flooding. This resulted in the loss of lives and the displacement of over 1,000 persons. Two years later, Hurricane Maria was responsible for damages and losses over EC\$1.3 billion. These disasters prompted the Government and the international community to take steps to address disaster adaptation and mitigation as a national priority and tackle environmental challenges from a development perspective. As a result of the Government's commitment to resilient development, the Ministry of Environment, Climate Resilience, Disaster Management, and Urban Renewal birthed in April 2018 to champion climate change challenges facing the country. After the General Elections of December 2022, changes were made to the portfolios of the Ministry to create the Ministry of Environment, Rural Modernisation, Kalinago Upliftment and Constituency Empowerment.

Mission

To promote environmental sustainability through modern resilience practices, policies, and programs.

Vision

To position the Commonwealth of Dominica at the forefront of sustainable environmental management within a climate-resilient framework while creating employment opportunities, improving the quality of life of the Kalinago people, and promoting rural modernization.

Core Values

- Resilience
- Effective and efficient communication
- Tolerance
- Spirit of Industry and Enterprise
- Self-Empowerment
- Empowerment of the indigenous people
- Dedication
- Commitment
- Integrity
- Accountability
- Inclusiveness
- Professionalism & Excellence

Key Results Areas

- KRA#1** Strengthened public awareness of climate change and environment
- KRA#2** Strengthened and coordinated environmental governance, action and reporting
- KRA#3** Enhanced and sustained resource mobilization and partnerships

- KRA#4** Strengthened Multilateral engagements and obligation on climate change, biodiversity and land degradation
- KRA#5** Coordinated research and education in environment resources, forestry and allied natural resources
- KRA#6** Sustainable growth and development in the Forestry sector
- KRA#7** Management of agro-forestry and commercial forestry
- KRA#8** Protection, conservation and management of the environment for sustainable development
- KRA#9** Modernized management processes for protected areas
- KRA#10** Conservation, management and restoration of forests for enhanced ecosystem benefits
- KRA#11** Improved collection of solid waste island-wide and service continuity post disaster and sustainable use of the natural resource base
- KRA#12** Enhanced sustainable waste management and pollution control
- KRA#13** Improved Community Resilience, Enhanced National Emergency, Early Warning Systems and Data Hazard Monitoring System
- KRA#14** Strengthened implementation of multi-lateral environmental agreements and enhanced climate change policies and legislation.
- KRA#15** Improved economic and sustainable Kalinago community with an enhanced standard of living.
- KRA#16** Increased national appreciation for the value and sacrifice of the Kalinago people.
- KRA#17** Improved agricultural sector with special emphasis on short term and high-value crops in the Kalinago community for local consumption and export.
- KRA#18** Development of small projects and programs nationally to ensure the economic sustainability of citizens.
- KRA#19** Enhancement of Governance structures.
- KRA#20** Job Creation and Placement – NEP

Strategic Objectives

- To coordinate with public and private sectors, non-governmental organizations, and civil society organizations implementation of Government's risk reduction strategies, geared towards proper environmental management, waste management, and the creation of resilient rural communities.
- To establish a legal framework for climate change including environmental management and climate financing.
- To provide capacity building in resilience monitoring and evaluation.
- To establish a strong coordination mechanism within the Ministry to serve as a hub for the Government's climate resilience efforts.
- To promote collaboration and coordination across Government Ministries on indigenous policies and programs
- To set priorities for and to track the progress of Dominica's indigenous agenda
- To enhance the government's awareness of the Kalinago people, issues, and best practices for consulting and engaging with the Kalinago people.
- To encourage diversity, especially the representation of Kalinago people, in the Dominica Public Service.

- To develop International/ regional relations with other indigenous people.
- To provide professional recruitment services that match employers with employees/interns to form successful work relationships.

Divisions within the Ministry

- Environment
- Forestry, Wildlife and Parks Division
- Dominica Solid Waste Management
- Constituency Empowerment
- Kalinago Affairs
- National Employment Program

D39 - Ministry of Tourism

Overview

Tourism is a major pillar that supports the Dominican economy. As such, the infrastructure, security, and safety of visitors are critical to the sustainability of this very volatile sector. Therefore, the Government of the Commonwealth of Dominica through the Ministry of Tourism will seek to position the Tourism Sector on a level comparable to and even advanced of that of other destinations in the Caribbean and beyond by making the appropriate investment in infrastructure, human resources, and marketing.

Mission

To develop Dominica as World Class, Sustainable Tourism destination in a responsible manner that will involve, engage, and benefit all Dominicans; conserve the natural environment; preserve the authentic Dominican Culture; and exceed the expectations of guests.

Vision

To establish Dominica as a resilient, World Class, Sustainable Tourism destination that is responsive and economically viable

Core Values

These are the fundamental beliefs of a person or organization. The **core values** are the guiding principles that dictate behavior and action.

- Excellence
- Integrity
- Professionalism
- Sustainability
- Productivity
- Responsibility
- Accountability
- Commitment
- Environmental stewardship

Key Results Areas

- KRA#1:** Developed and effectively utilize Tourism Sites and Attractions in a Sustainable Manner
- KRA#2:** Developed highly skilled and motivated staff and stakeholders utilizing best practices
- KRA#3:** Updated Policies and Legislation – (MOT)
- KRA#4:** Fostered understanding, growth, and development in Community, Cultural and Heritage Tourism
- KRA#5:** New and Enhanced Tourism Products and Services (Ministry of Tourism)
- KRA#6:** Improved Market Driven Promotion

- KRA#7** Building a Climate Resilient Tourism
- KRA#8** Improved Air and Sea Access
- KRA#9** Monitor and Adherence to Government Maritime Policies
- KRA#10** Implement Waste Management [MARPOL 73/78, Annexes)
- KRA#11** Administer Ship Registration Programme

Goals

- We commit to making tourism a major contributor to Dominica's sustained economic growth by increasing the volume and value of tourism by an annual average of 12.6 percent.
- We commit to making Dominica the number one tourism destination in the Caribbean Region
- We are committed to diversifying product offerings to exceed visitors' expectations
- We commit to creating the enabling environment for the development of tourism at community and national levels
- We commit to providing a high level of service which is characterized by excellence
- We commit to supporting programs which help to promote and preserve all the various aspects of Dominica's arts, culture, heritage, and natural environment through the seven (7) tourism pillars; Aqua, Agro., Adventure, Festivals, Health and Wellness, Kalinago, Romance,
- We commit to delivering training to the tourism service providers that will contribute significantly to the alleviation of poverty and an increase in prosperity
- We commit to embracing modern technology to ensure safe and more efficient means of communication among our multiple stakeholders
- We are committed to creating a vibrant and well-regulated maritime sector
- We commit to promote the sustainable use of the terrestrial and marine resources
- To provide safe berthing facilities for the visitors

Divisions within the Ministry

- Discover Dominica Authority
- Dominica Air and Sea Port Authority
- Maritime Administration Unit

D44 - Ministry of Culture, Youth, Sports and Community Development

Introduction

The Ministry of Culture, Youth, Sports and Community Development is the primary agency of government with the mandate for aligning the country's climate resilience vision with the five pillars of the Sustainable Development Goals (SDGs) – people, prosperity, peace, planet and partnership. Every aspect of its portfolio whether it is Culture, Youth, Sports, Community Development, Cooperative or Postal Services are all geared towards the upliftment and transformation of the quality of lives of people. For this obvious reason, the Ministry is referred to as the People's Ministry. The Ministry is therefore, committed and driven to accomplishing the Result Areas of Strong Communities and Enhanced Collective Consciousness through active participation of a socially vibrant people through sports, culture and community development.

The fundamental premise of the Ministry of Culture, Youth, Sports and Community Development is predicated upon the preservation and advancement of the nation's culture, to help shape and nature youth to be productive citizens in all forms through responsible behaviors in all aspects of life including cultural expression, sports and community development. Dominica's tradition of koudmen (social capital), is a major contributor to equal development through collective decision making and action. Many sporting and other social and economic events are organized through well-established community based groups or by volunteer individuals that share a common interest. The Ministry also holds the responsibilities for important service institutions like the Cooperative Division and General Post Office.

Overview

The Government of the Commonwealth of Dominica is duly convinced that sport is an invaluable contributor to the health and well-being and character of the Dominican people and in particular our national pride, and to the social and economic advancement of the country.

It is the Ministry's desire to preserve, promote and develop Dominica's culture and all its various expressions through facilitating of training in the arts; providing of support for the local cultural industries and encouraging of cultural exchange with other countries. For the expressed purpose of building national identity, for stimulating social inclusion and strengthening of the creative sector greater economic rewards.

Of equal importance is the use of the Post Office and Cooperatives as very viable means of transforming the wellbeing and quality of lives, particularly, within small and rural communities through the advancement of entrepreneurship.

Through the renewed focus of Community Development Division grassroots inclusion shall be purposefully nurtured for "mobilizing and empowering people to come together to take action on what's important to them".

This shall be the integrated and harmonized approach of the Government for cultivating the social capital and collective consciousness for transforming a Dynamic Dominica into the first climate resilient nation of the world. Adopting a development agenda designed to transform Dominica into an example for sustainable development and climate resilience for the world.

Strategic Objectives

- Formulate and administer policies to guide programs of the Ministry
- To foster a social and economic environment for men, women and young people to acquire the skills and experience required to access existing and future employment opportunities and to effectively address their various social and economic challenges
- To increase access to education and training opportunities for youth, out – of- school youth, and youth with special needs
- To promote the acquisition of skills for a more resilient society.
- To facilitate improved access to resources for participation in social and economic development
- To increase the awareness and strengthen more cooperative systems among grassroots organizations
- To enhance postal delivery services through the utilization of more modernized systems
- To stimulate and infuse the populace with more creative cultural arts and genres of musical forms of entertainment

Divisions within the Ministry:

The Ministry of Sports, Culture and Community Development composes of the following Divisions/ Programme which includes:

1. Policy Formulation and Administration
2. Community Development
3. Cooperative Development Division
4. Sports Division
5. Division of Culture
6. Youth Development Division
7. Dominica General Post Office
8. Basic Needs Trust Fund Office
9. Disaster Victims Help Desk
10. Windsor Park Sports Stadium

Key Result Areas

1. Poverty Reduction and Sustainable Communities;
2. Increase Participation and Interest at all Sporting Levels;
3. Increased community, schools and institutions participation in cultural and heritage programmes and projects;
4. Formation of Cooperatives in non-traditional, emerging sectors and green business development;
5. Rebranding of the Post for administering of additional and modernized services;
6. The rebranding, additional services and modernization of the Post
7. Provision of technical, vocational and social related skills training for men, women, children and youth
8. Building a resilient population through community empowerment, entrepreneurship, training, enterprise development and social interventions

D50 – Establishment

Overview

The Establishment, Personnel and Training Department (EPTD) is the arm of the Government of Dominica established by law (Section 17 of the Public Service Act Chapter 23:01 of the 2017 Revised Laws of Dominica) to manage, direct and control the Public Service, subject to Sections 68 and 85 to 90 of the Constitution of the Commonwealth of Dominica.

The EPTD has, inter alia, to administer or ensure the administration of regulations governing the Public Service and to ensure that efficiency is maintained in the Public Service. The EPTD plays a critical role in the management of the Public and Police Services. It is responsible for maintaining a Classification of Offices in the Public Service and ensuring that this Classification is observed; for keeping under review the pay and allowances payable to public officers and for ensuring that opportunities in the Public Service for promotion are based on merit, ability and integrity. The EPTD ensures that public service obligations are carried out while at the same time providing an acceptable working environment for public officers by treating with public sector representative bodies and/or public officers in respect of classification of offices, grievances, pay and allowances and terms and conditions of employment.

Vision

A productive and dedicated Public Service that is responsive to local and global challenges.

Mission

To develop and manage a productive, efficient, dedicated Public Service outfitted with the best-trained staff, operating systems, protocols and procedures that are highly responsive in every circumstance.

Core Values

The Management and Staff of Establishment, Personnel and Training Department are citizen-focused in the delivery of services to Government, members of the public and every single citizen of Dominica. The overarching goal is to improve service delivery through embracing these under-mentioned core values:

- Respect for democracy
- Impartiality
- Non-partisanship
- Loyalty
- Integrity
- Accountability
- Stewardship and excellence

Divisions and Units within the Department

1. Public Service Training Centre
2. Resourcing (Human Resource Development)
3. Financial Management
4. Facilities Management
5. Public Sector Reform
6. Information and Communication Technology

Goals of the Department

1. To recruit, train and deploy a highly skilled, productive, healthy and efficient workforce which adapts readily to the changing operational environment
2. To strengthen support structures and systems in the Public Service in creating a sound foundation for human resource development practice
3. To ensure that human resource development in the Public Service is effectively governed in order to promote successful implementation of the Strategic Plan
4. To align human resource policies and processes with government's priorities

Key Result Areas

1. Improved Human Resource Management
2. Increased Public Sector Performance
3. Promotion of Governance and Institutional Development
4. Effective Government Initiatives for Economic Growth and Development

D52 - Ministry of Public Works, Public Utilities and The Digital Economy

Overview

The Ministry of Public Works, Public Utilities and the Digital Economy has been given the mandate for the development of the digital economy in Dominica, the administration and implementation of the physical and digital infrastructure and, management of Dominica's abundant water resource. The Ministry also seeks to develop a more proactive approach to the management of its affairs to ensure the effective delivery of services, in keeping with the needs of all stakeholders, the current trend of globalization, and the phenomenal pace of technological advancement. To ensure optimal delivery of services, the Ministry will place greater emphasis on recognizing and sensitizing its human resources. The Ministry will seek to constantly monitor the road network for timely, cost-effective maintenance and development and develop the required framework for the development of a sustainable digital economy.

Mission

To develop resilient physical infrastructure and provide digital services that can withstand and/or recover quickly from adverse events through improved; standards, institutional systems, and regulatory oversight.

Vision

Resilient infrastructure, integrated technology.

Core Values

The Ministry of Public Works, Public Utilities and Digital Economy is committed to responding to emerging challenges and to ensure quality service delivery to the general public and subscribes to the following:

- Structured
- Responsiveness
- Integrity
- Economical
- Dedication
- Equity
- Connectivity

Key Results Areas

- KRA #1** Safe & Accessible Road Network
- KRA #2** Flood, Landslide & Coastal Risks Mitigated
- KRA #3** Effective electrical services provided
- KRA #4** Green and Affordable Electricity
- KRA #5** Effective Project Management and Technical Support
- KRA #6** Sustainable, Safe and Affordable Potable Water Supply & Sewerage Services
- KRA #7** Improved Productivity and Service Delivery in the public sector through the use of technology
- KRA #8** Create an Enabling Environment for the Digital Economy

Goals

- Develop a safe, and accessible road network in good condition
- Mitigate flood & landslide risks
- Provide efficient & effective electrical service through improved regulatory oversight and enforcement
- Provide green and affordable electricity
- Effective project management and technical support provided to Government ministries and agencies
- Provide island-wide access to sustainable safe and affordable potable water, and sewer-age services
- Increased the percentage of businesses using the internet as a business tool and a catalyst goal
- The creation of an enabling environment for the protection of the public and private sectors from virtual and physical cyber vulnerabilities and threats.
- Development of advanced digital skills to jobs pipeline program aimed to provide access to global calibre digital skills training/certifications and support for remote-working enabled placements with global companies/clients
- Enabler of digital government, to support public sector productivity and extend key digital public services to the citizens of Dominica.

Divisions within the Ministry

- Policy Formulation and Administrative Unit
- Technical Service Division
- Electrical Division
- Information and Communication Technology Unit (ICT)
- Government Information Service (GIS)
- Telecommunications and Broadcasting Unit
- Caribbean Digital Transformation Project (CARDTP) PIU
- Disaster Vulnerability Response Project (DVRP) PIU

Agencies

- Dominica Water and Sewage Company (DOWASCO)
- Independent Regulatory Commission (IRC)
- Public Works Corporation (PWC)
- National Telecommunications Regulatory Commission (NTRC)
- Dominica Broadcasting Services (DBS)

D53 - Ministry of Foreign Affairs, International Business, Trade and Energy

Overview

The Ministry of Foreign Affairs, International Business, Trade and Energy continues to advance the foreign and trade policy in keeping with its domestic priorities. The Commonwealth of Dominica is recognized internationally as a pioneer in climate diplomacy and for its dedicated championing of a holistic and integrated resilient energy agenda. On a larger scale, the Ministry remains steadfast in its goal to formulate and guide policies and programs to advancing clean energy and collaborating with its partners with a view to enhancing green economic growth for the well-being of all citizens.

Mission Statement

The Ministry of Foreign Affairs, International Business, Trade and Energy commits to represent, promote and protect the Commonwealth of Dominica's interests, image, and sovereign equality; facilitate and enhance a people-centered enabling environment for trade, and advance and seek out opportunities for increased exports and investment.

Vision Statement

A resilient Ministry, the driver of trade and energy, business innovation and export development with a vibrant foreign policy, pivotal to the overall development and sustainable economic growth in the Commonwealth of Dominica.

Core Values

The core values are the guiding principles that dictate behavior and action.

- Confidentiality and loyalty
- Diplomacy
- Respect
- Teamwork, sharing, and inclusion
- Professionalism
- Productivity
- Resilience
- Respect for Democracy
- Impartiality
- Non-Partisanship
- Loyalty
- Integrity
- Accountability
- Stewardship and Excellence

Key Result Areas (KRAs)

- KRA#1:** Increased facilitation and coordination of activities related to Dominica's multilateral relations.
- KRA#2:** Continued cordial and fruitful bilateral relations.
- KRA#3:** Increased diplomatic representation in key jurisdictions.
- KRA#4:** An institutionalized cadre of highly skilled, internationally trained and motivated human resource.
- KRA#5:** A resilient ministry established with a robust infrastructure.
- KRA#6:** Enhanced functional networks.
- KRA#7:** Availability of high-quality goods and services on the market.
- KRA#8:** Increased export of new and existing goods and services.
- KRA#9:** Identification of new commodities for domestic and export markets.
- KRA#10:** Expansion of fresh produce and added value trade for the domestic and export markets.
- KRA#11:** Establish support system for business innovation and entrepreneurship.

Strategic Objectives:

Developing further multidisciplinary and multilevel synergies in fields such as security, energy, economy, trade, culture, education:

- To improve the legislative and regulatory framework to facilitate improved and increased, bilateral and multilateral relations, Trade and Energy.
- To conduct periodic review of Conventions, Treaties and Agreements to which Dominica is State Party to with a view to ensuring that obligations are met.
- To ensure that Missions and Embassies are equipped to offer effective bilateral and multi-lateral representation at all times.
- To conduct reviews of bilateral and multilateral partners to ensure mutual benefits.
- To developing and furthering multi-level synergies in trade, education, culture, health, energy and security to name a few.
- To modernize its diplomatic and consular representation
- To expand Visa Waiver Agreements for holders of Dominican passports.
- To identify target countries for the appointment of diplomatic and consular personnel and appoint representatives in these hubs.
- To facilitate official and other high-level visits.
- To prepare Standard Operating Procedures (SOP).
- To optimize the use of overseas Missions and Embassies.
- To improve collaboration with overseas missions and consular representatives and line ministries.
- To promote engagement with the Dominican diaspora on all fronts.
- To increase the availability of fresh produce and value-added products on the domestic, regional and international markets
- To increase market access and placements especially on the regional and international market.
- Access trade performance and improve market confidence.

- To training of farmers and fisherfolks in best practices and safety in packaging of goods for exports and local consumption.

D54 - Cabinet Office (Secretariat)

Overview

The Cabinet Office facilitates the constitutional function of Government to include the coordination and arrangement of the business of Cabinet. By virtue of this unique mandate the Cabinet Office functions as the primary coordinating mechanism for multi-ministry, multi-sectoral actions generally to advance national development, and in particular as it relates to executing the decisions of the Cabinet.

Mission Statement:

The Cabinet Secretariat seeks to ensure effective coordination among government ministries, departments, and agencies, facilitate the implementation of government policies and decisions, and provide strategic support to the Prime Minister and Cabinet for the development and execution of national priorities while promoting transparency, accountability, and good governance.

Vision:

The Cabinet Secretariat strives to be the cornerstone of effective governance, dedicated to fostering a cohesive, efficient, accountable and responsive government that serves the public interest and advances national development goals.

Core Values:

The core values of the Cabinet Secretariat are the fundamental beliefs and guiding principles that define its culture and promote good governance.

1. Collaboration: Promoting a collective agenda and fostering cooperation across ministries, departments, and agencies to achieve unified government objectives.
2. Innovation: Encouraging creativity and the adoption of new ideas and technologies to improve governance and service delivery.
3. Confidentiality: Maintaining and protecting sensitive information as a matter of national security and legal compliance.
4. Resilience: Building a robust framework to effectively manage crises and adapt to changing circumstances.

Divisions within the Cabinet Secretariat:

The Cabinet Secretariat comprises the following established Units namely:

- The Cabinet Office - Administrative Unit
- The Central Stenographic Unit
- The Printing Services Unit (Government Printery): The operations of the Printery include bulk reproduction of a wide range of forms and documents (Hospital, Ministry of Education, passport forms for the police, Gazette, Parliamentary Bills and laws).
- The Inter-Ministerial Coordination Unit: This unit is responsible for liaising with all relevant Ministries/ Units to build synergies and avoid overlaps.

Strategic Objectives and Responsibilities:

The core functions of the Cabinet Office; Inter-ministerial Policy Coordination & Monitoring, Resilience, Cabinet Matters, Printing and Administration are carried out by individual Units within the Cabinet Secretariat.

The following strategic objectives provide the framework for good governance that ensures the efficient and effective functioning of the government.

1. **Coordination of Government Policies:** Ensuring that policies across different ministries and departments are well-coordinated and aligned with the overall goals of the government.
2. **Support to the Prime Minister and Cabinet:** Providing administrative and logistical support to the Prime Minister and Cabinet members to facilitate decision-making processes.
3. **Policy Formulation and Implementation:** Assisting in the formulation of national policies and ensuring their effective implementation through various government agencies.
4. **Crisis Management:** Coordinating government responses to emergencies and crises, ensuring swift and effective action to mitigate impacts.
5. **Monitoring and Evaluation:** Continuously monitoring the progress of government initiatives and policies, evaluating their outcomes, and making necessary adjustments.
6. **Inter-Ministerial Coordination:** Facilitating communication and collaboration between ministries and departments to address cross-cutting issues and advance national priorities.

Key Result Areas for the Cabinet Office to 2025:

1. Coordinate the implementation of Policies and Programmes of the Government and ensure that all Ministries, Departments and Agencies efficiently implement the policy directives from Cabinet.
2. Provide oversight and support for public policy and Public Service transformation initiatives within the Public Service.
3. Ensuring the efficient coordination and implementation of the recommendations of the Organizational Review and Reclassification (ORR) Exercise so that the outcomes meet the objective of transforming the Public Service.
4. Overseeing the strategic and efficient implementation of various initiatives geared towards the digital transformation of the Public Service and enhanced service delivery.
5. Ensuring the effective operations of the Stenography and Printing Services for the Public Service.

D57 - Ministry of Labour, Public Service Reform, Social Partnership, Entrepreneurship and Small Business Development

Overview

The Ministry of Labour, Public Service Reform, Social Partnership, Entrepreneurship and Small Business Development is committed to the country's goal for resilience and the overall development of the Public Service and the Dominican economy. The Ministry aims to significantly transform and modernize the Public Sector, focus on the provision of citizen-centric services, promote the creation of the enabling environment for the sustainability of Micro, Small and Medium Enterprises (MSMEs) in Dominica and continue to diligently work to ensure adherence to all applicable domestic labour and International Labour Standards (ILO) laws, standards and practices and Occupational Health and Safety practices in the work places. Importantly, the programmes of the Ministry will be implemented across all sectors and with the engagement of all stakeholders including other ministries, public and private sector entities, MSMEs, civil society and faith-based organizations.

Vision

A transformed Public Service as a vehicle for stimulating increased contribution of the business sector and civil society towards a just, prosperous and resilient Dominica.

Mission

To be the lead Ministry with responsibility for facilitating the enabling environment for business growth and development while ensuring fair labour practices; and driving public sector transformation towards a more inclusive and sustainable society.

Core Values

- Pro
- Respect for Democracy
- Impartiality
- Stewardship and Excellence
- Accountability/Transparency
- Loyalty
- Integrity
- Accountability
- Reciprocity
- Resilience
- Connectivity
- Productivity
- Professionalism
- Good Governance
- Participation
- Non-Partisanship

Key Results Areas (KRAs)

- KRA #1:** Organizational and Managerial Effectiveness
- KRA #2:** Increased Participation of the Public in the National Development Process
- KRA #3:** Effective administration of employment opportunities, Immigration and Industrial Relations
- KRA #4:** Institutional Strengthening
- KRA #5:** Capacity development
- KRA #6:** Increased public knowledge and understanding of the Ministry's purpose.

Goals

- To foster social partnerships among government, employers, workers, entrepreneurs, small business sector and civil society organizations
- To mobilize and empower citizens to participate in national development
- To collaborate with NGO's, Faith Based Organizations and Friendly Societies.
- To facilitate better access to resources for participation in social and economic development at the community level.
- To ensure compliance with labor laws and promote fair labour practices.
- To drive the public sector towards modernization and transformation for greater efficiency, transparency and accountability.
- To promote entrepreneurship and innovation through training, mentorship, and access to networks and resources.
- To promote the creation and growth of small businesses through capacity-building, access to finance, and business development services.

Strategic Objectives

- Enhance the competency of managerial/supervisory staff by implementing or organizing targeted training as required to improve performance and productivity.
- To submit comprehensive monthly reports on projects, policy measures and programmes
- To promote and facilitate Health and Wellness
- To improve Service Delivery
- To prudently manage the Ministry's budget and resources
- To formulate, advise and implement policy
- To improve relations with Non-Government Organization, Faith Based Organizations, and Friendly Societies
- To promote citizen participation in service delivery by providing spaces, resources, and communication channels
- Engage in activities to promote Labour Standards and raise awareness of critical Labour issues as it relates to terms of employment and conditions of work of all workers both unionized and non-unionized on the island; and encourage compliance of local laws and International Labour Standards as outlined in the ratified Conventions of the International Labour Organization (ILO)

- To promote activities and establish procedures geared towards achieving compliance of the provisions of the Employment safety Act Chap 90:08 of the Laws of Dominica
- Promote and augment labour-related programmes such as the Decent Work Country Program, the Canadian/Caribbean Farm Program, on an ongoing basis
- To advance Alternative Dispute Resolution
- To strengthen collaboration with other Departments of Government and private sector agencies
- To develop and implement modernized public sector management mechanisms and procedures that are effective, efficient, and innovative
- To collaborate for the implementation of digital solutions for improved delivery of services to the public
- To define models for service delivery standards, levels, mechanisms and procedures in line with the needs of the public
- To increase the availability and accessibility of financing options for small businesses
- To increase the availability and quality of training and support programs for small businesses
- To improve market access for small businesses
- To improve the regulatory environment for small businesses
- To promote networking and collaboration among small businesses and with other stakeholders
- Implement, monitor and evaluate a comprehensive Communication Plan including: activities to increase the Ministry's social media presence and engagement; participation in events to increase visibility and promote the ministry's programs and initiatives; and distribution of informative/ educational material to stakeholders about the ministry's activities
- To foster relationships with relevant media outlets and journalists to ensure accurate and timely reporting of the ministry's activities and initiatives
